Finding R&D Tax Credits for **BOATBUILDING COMPANY**

Who We Are

We help business owners find R&D tax credits in a fully compliant and efficient way. We've worked with many boatbuilding operations to recoup costs for the research and development that you've done to innovate and grow your business.

WHAT QUALIFIES?

- Testing hull geometries, keel configurations, or deck layouts to improve hydrodynamic performance or stability
- Experimenting with composite materials, marine-grade alloys, or resin systems to reduce weight or improve corrosion resistance
- Developing or refining propulsion systems, including hybrid or electric drive configurations
- Testing antifouling coatings, below-waterline treatments, or surface finishing processes
- Integrating and validating onboard navigation, power management, or ballast control systems
- Improving manufacturing processes such as vacuum infusion, mold tooling design, or CNC fabrication workflows

WHY WORK WITH US?

Financially Lucrative

7-10% tax reimbursement or tax credit on qualifying costs per year.

No Risk

We provide a risk-free consultation, & should you qualify, you can claim back the R&D costs from the previous 3 tax years, current tax year, and every tax year moving forward you continue to qualify.

What Costs Qualify?

- Supplies
- Wage costs within the management & production team
- Experimental software
