Finding R&D Tax Credits for your **METAL FABRICATION OPERATION**

Who We Are

We help business owners find R&D tax credits in a compliant and efficient way. We've worked with many fabrication companies to recoup costs for the research and development that you've done to innovate and grow your business.

WHAT QUALIFIES?

- Developing and refining proprietary welding, cutting, or forming techniques to improve strength, precision, or material efficiency.
- Iterating on tooling, fixturing, and machine configurations to optimize production processes or achieve tighter tolerances.
- Testing and qualifying new metal alloys, coatings, or treatments for performance under specific load, heat, or corrosion conditions.
- Engineering custom automation or CNC programming solutions to solve fabrication challenges.
- Designing and validating quality control processes, including developing inspection methods for novel geometries or material specifications.

WHY WORK WITH US?

Financially Lucrative

7-10% tax reimbursement or tax credit on qualifying costs per year.

No Risk Benefits

We offer a free consultation to determine whether or not you qualify. You can then claim eligible costs back from the previous 3 years, current year and every year moving forward, should you continue to perform qualifying activity.

What Costs Qualify?

- Wages
- Software
- Contractors
- Supplies
