Finding R&D Tax Credits for your **PRECISION OPTICS COMPANY**

Who We Are

We help business owners find R&D tax credits in a fully compliant and efficient way. We've worked with many precision optics operations to recoup costs for the research and development that you've done to innovate and grow your business.

WHAT QUALIFIES?

- Designing and developing new or improved lenses, mirrors, prisms, and optical assemblies.
- Experimenting with new optical-grade materials or advanced thin-film coatings to improve transmission, resistance, or reflectivity.
- Developing new or improved grinding, polishing, molding, or diamond-turning techniques to achieve higher surface precision.
- Designing, building, and testing first-article prototypes, including validating optical performance in challenging environments.
- Designing and developing unique tools, jigs, or fixtures to support manufacturing needs.

WHY WORK WITH US?

Financially Lucrative

7-10% tax reimbursement or tax credit on qualifying costs per year.

No Risk Benefits

We offer a free consultation to determine whether or not you qualify. You can then claim eligible costs back from the previous 3 years, current year and every year moving forward, should you continue to perform qualifying activity.

What Costs Qualify?

- Wages
- Contractors
- Supplies
- Computer Rental (Cloud)

<https://rk.partners>

800+ businesses served.

\$100M+ secured for our customers.

ZERO audit adjustments.

"RK Partners did a great job of finding all qualifying R&D work in my business and documenting it professionally. We were also able to find current work that will qualify for our claim next year, so I look forward to working with them in the future! I would recommend using RK Partners to look into your current process."

Mark Hess, - E.R. Precision Optics
