### Who We Are

We help business owners find R&D tax credits in a compliant and efficient way. We've worked with many cosmetics companies to recoup costs for the research and development that you've done to innovate and grow your business.

### WHAT QUALIFIES?

- Developing and iterating on proprietary formulations to meet client specifications for performance, texture, stability, and skin compatibility.
- Evaluating novel ingredients, actives, and delivery systems for efficacy, safety, and regulatory fit across product categories and markets.
- Engineering and optimizing emulsification techniques, mixing protocols, and manufacturing-ready processes for scalable production.
- Designing and validating stability and compatibility testing protocols across temperature, humidity, light exposure, and packaging variables.
- Developing sustainable and clean-label formulations that meet client performance benchmarks while replacing regulated or legacy ingredients with compliant alternatives.

### WHY WORK WITH US?
