## Finding R&D Tax Credits for Your **AEROSPACE COMPANY**

### Who We Are

We help business owners find R&D tax credits in a compliant and efficient way. We've worked with many aerospace companies to recoup costs for the research and development that you've done to innovate and grow your business.

### WHAT QUALIFIES?

- Running CFD simulations, wind tunnel testing, and structural analyses
- Developing onboard flight control algorithms, autopilot logic, navigation software, and communication modules.
- Designing and testing hardware-software integration for avionics panels and satellite communications.
- Designing new or improved propulsion and flight control systems
- Engineering solutions to manage extreme heat, cold, and pressure in high-altitude or spaceflight environments — including thermal protection systems, pressurization, and HVAC architecture.
- Designing and prototyping drones or autonomous aircraft, improving flight control performance and autonomous decision making

### WHY WORK WITH US?

#### Financially Lucrative

7-10% tax reimbursement or tax credit on qualifying costs per year.

#### No Risk Benefits

We offer a free consultation to determine whether or not you qualify. You can then claim eligible costs back from the previous 3 years, current year and every year moving forward, should you continue to perform qualifying activity.

#### What Costs Qualify?

- Wages
- Contractors
- Supplies
- Computer Rental (Cloud)
