ESTATE CARE

WHY ESTATE CARE MATTERS

ALWAYS READY, ALWAYS BEAUTIFUL

With proactive year-round oversight, Estate Care properties are always event ready. Whether the kids are coming for the weekend, or you have plans for a backyard wedding reception, Estate Care ensures your property is picture-perfect and ready to enjoy.

PROACTIVE CLIMATE ADAPTATION

Estate Care offers innovative solutions to managing higher temperatures, intense rainfall, and shifting plant hardiness zones. Whether it's stabilizing coastal slopes to prevent erosion or adapting to migrating plant diseases and pests, our strategies protect and enhance landscapes in the face of emerging challenges.

INVESTMENT PROTECTION

Many homeowners do not fully grasp the degree to which landscapes, as living ecosystems, will evolve over time. Forces like weather and invasive growth can gradually erode design intent and plant health. Like planning for home maintenance, it's important to be forward thinking about luxury landscape care to protect your investment.

ONE HAND TO SHAKE

Serving as the single point of contact, Estate Care crews take care of everything related to your landscape, so you can focus on enjoying it! With more than 25 years of experience serving luxury property owners, our full-service team manages all aspects of landscape construction and care.

NURTURE & FLOURISH

Estate Care is more than maintenance; it's about nurturing a landscape so it can truly flourish. Experienced oversight ensures a beautiful and thriving landscape for generations to come, and peace of mind for homeowners who demand the best for their properties.

ELEVATE YOUR LANDSCAPE

Legacy properties require dedicated, year-round care to preserve beauty and value. Estate Care offers a customized, proactive approach to ensure your landscape remains stunning, healthy, and ready to enjoy.
