**DGTL.**

CREATIVE LED DISPLAYS

# INTRODUCING **ribbon.**

Full-color, dynamic content is a powerful tool in your creative arsenal. With **ribbon.**, you can seamlessly thread visual content throughout any environment. Whether integrated with scenic and architectural features or as a stand-alone element, **ribbon.** amplifies visual impact with energy, emotion and movement. **ribbon.** provides a full-range of solutions to meet your design needs.

# MEET THE FAMILY

## 5 SERIES & 10 SERIES

Our classic 'ticker' style display, The 5 series and 10 Series feature an aluminum body in both single and double sided configurations.

These modular displays come standard in lengths of 0.75m and 1.0 m and are perfect for wayfinding & dynamic signage applications

## 6 SERIES

The 6 series is a step up in size with 6.3 inch tall LED modules in 12.6 inch increments.

Flexible design, perfect for integration with architectural features and customized fixtures.

## CONTOUR

Contour is an industry leading creative display delivering fine pixel pitch solutions for challenging layouts in high traffic areas. While Contour shares familiar components with other **ribbon.** products.

Contour's uniquely thin, strong and adaptable modules and engineered follow the curves and shapes of the commercial environment, as well as being hardened against impacts that would damage more traditional displays.

## MOSAIC

Our most traditional LED product, designed for temporarily installations and exhibits Mosaic prioritizes durability, image quality and premium components for a long service life and excellent performance at each installation.

## MURAL + VISTA

Mural & Vista displays each provide an incredible range of sizes with advanced features, ease of install, enhanced image performance and industry-leading reliability all at a competitive value.

The perfect solution for large permanent video installations

# GET STARTED

Choose a pixel pitch based on your ideal viewing distance.  
(1mm pitch for every 1m of viewing distance.)

Consider content style and proportions to help select the right **ribbon.** for your project. Display sizes range from 2.5 up to 10 inches.

Our standard modular **ribbon.** displays fit most creative applications. From standard sizes to complex shapes, displays can be tailored to any space.

**ribbon.** can be integrated into scenic elements, wall mounted or suspended for a variety of applications.

Along with choosing your ribbon., keep in mind these 3 things:

**POWER** - **ribbon.** installations typically use 25w - 45w per foot, utilizing standard power infrastructure with options for easy plug-in low voltage power supplies providing flexible options for powering your display.

**CONTENT** - Formatting content is easy to do with any video editing software such as Adobe After Effects. **ribbon.** Displays are configured to work with standard 1080p or 4k video files.

**CONTROL** - Ethernet cables feed data to the display, allowing for unobtrusively placed controls. One processor & media player are all that are needed to control up to 800ft of **ribbon.** displays synchronized anywhere throughout your space.

## 5 SERIES

Our classic ‘ticker’ style display reproduces more dynamic content at a higher resolution than typical tickers. It features an aluminum body in both single and double-sided configurations in a popular 5” height. These modular displays are the perfect linear canvas for full-color motion content such as video or animated text. **ribbon.** 5 series takes the familiar form of a low resolution ‘ticker’ to the next level giving your space more options for color and image quality.

## KEY FEATURES

### SEAMLESS

Extend your creative vision with a seamless modular display that will guide attention throughout your space.

### DOUBLE THE IMPACT

Configurable as single or double sided displays, the 5 series gives you the versatility to take full advantage for layering content into your space

### CAPTIVATING

The **ribbon.** 5 series is the ideal canvas for classic 'ticker' content that stands out, with captivating energy and movement.

## 10 SERIES

Double the size of our traditional model the ribbon. 10 series is based on the same versatile aluminum body in both single and double-sided configurations as the 5 series but in a larger 10 inch size. These modular displays are the perfect linear canvas for full-color motion content such as video or animated text where more content detail is needed to bring your vision to life. Extra pixels and visual impact help deliver content that is perfect for larger area applications.

## KEY FEATURES

### SEAMLESS

Extend your creative vision with a seamless modular display that will guide your audiences' attention throughout your space.

### DOUBLE THE IMPACT

Just as with the 5 series, the 10 series is able to be configured as single or double sided displays, the 10 series gives you the versatility to take full advantage for layering content into your space

### CAPTIVATING

The **ribbon.** 10 series is the ideal canvas for classic 'ticker' content that stands out, with captivating energy and movement. With double the size canvas, the 10 series provides even more area to layer detailed content into your environment

## 6 SERIES

Similar to our classic 'ticker' style, the ribbon. 6 series reproduces more dynamic content at a high resolution than typical tickers. But the flexible modules and custom-shaped steel cabinets allow the 6 series to give full-color motion content in almost any linear curvature, in a popular 6" height.

## KEY FEATURES

### CURVES

Layer content along the contours of your space without compromising creative vision. Accent the flow of the environment without covering up the smooth lines of your design.

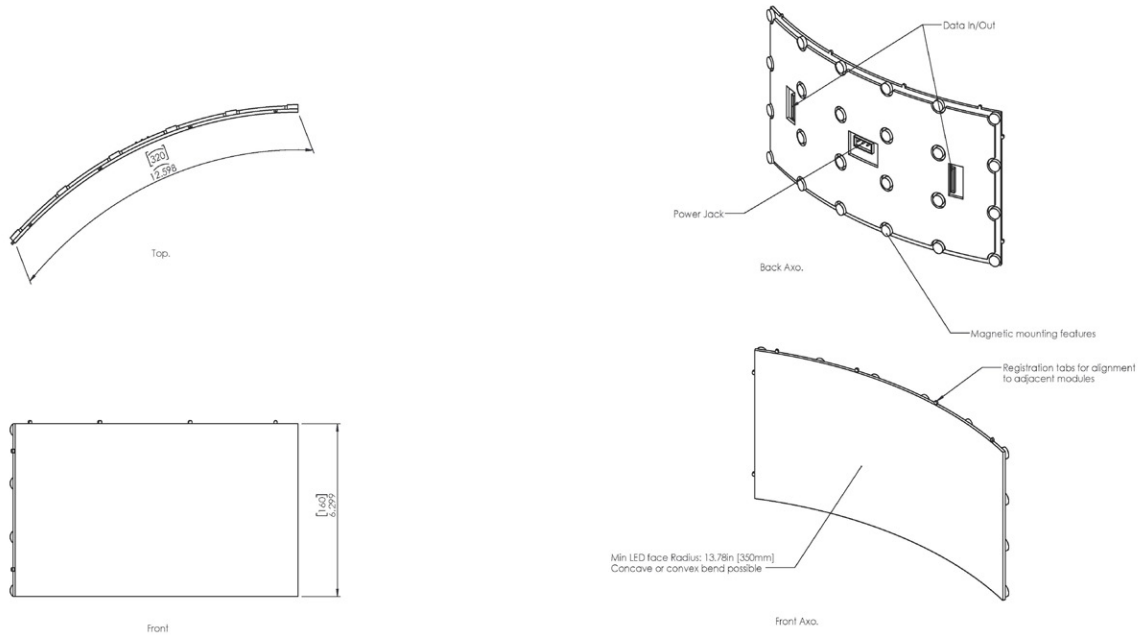

### ADAPTABLE

Highly modular and with multiple sizes to work with, Flex series can fit in almost any situation without adding bulky or heavy components to your concept.

### INTEGRATED

Thin and versatile, **ribbon.** is the perfect option for threading dynamic content into a retail concept, product display or environment feature where you want it.

# MURAL SERIES

The ribbon. Mural display combines high-resolution video with a low-profile and versatile body, engineered to provide easy, precise installations. Each modular display can be tiled to create a video wall suitable for most any space, whether replacing an existing video wall or an enhancement for a new location, Mural's value and versatility is unmatched.

## KEY FEATURES

### HIGH RESOLUTION

With pixel pitches ranging from 1.2mm to 3.9mm, vibrant, full-color video looks incredible on ribbon. Mural. These displays have an ideal viewing distance perfect for small spaces as well as large venues.

### VERSATILE

These versatile displays pack a visual punch with excellent brightness and black levels. ribbon. The lightweight, low-profile, cast aluminum displays allow ribbon mural to be mounted onto most walls with clean, design friendly appearance perfect for upgrading from tiled LCD Walls

### ECO-FRIENDLY

Available with an option for common cathode design **ribbon.** Mural displays offer an environmentally friendly low heat, power efficient solution to replace older displays.

## VISTA SERIES

The **ribbon.** Vista display combines brilliant image quality video with a low profile - an efficient design to provide excellent value. Each modular display can be tiled to create a video wall suitable for replacing 46" LCD video walls or creating larger-than-life video centerpieces. Whether replacing an existing video wall or an enhancement for a new location, Vista's value at scale is unmatched.

## KEY FEATURES

### BIG IMPACT

Vista, like its smaller sibling, Mural, packs a visual punch with excellent brightness and black levels. ribbon. Vista creates even more value at scale as our solution for efficient, multi story displays. It is a near true-to-size replacement for traditional 46" LCDs. Vista's nearly 1m long 16:9 cast aluminum body can be mounted onto most walls with clean, design friendly appearance perfect for large video installations.

### ECO-FRIENDLY

Available with an option for common cathode design ribbon. Vista displays offer an environmentally friendly low heat, power efficient solution to replace older displays.

# MOSAIC SERIES

The ribbon. Mosaic display combines high resolution video with a rugged, versatile body built to stand up to the demands of touring and rental use. Each modular display can be tiled to create a video wall. For maximum visual impact, Mosaic displays can be angled for a gentle curve when ground supported or flown from truss.

## KEY FEATURES

### HIGH RESOLUTION

With pixel pitches ranging from 1.5mm to 3.9mm , vibrant, full-color video looks incredible on ribbon. Mosaic. These displays have an ideal viewing distance perfect for small spaces as well as large venues.

### BEAUTY AND THE BEAST

Rugged displays that pack a visual punch with excellent brightness and black levels. **ribbon.** Mosaic's durable cast aluminum body can be mounted into most any production environment.

# OUR PARTNER(S)

## TRANSPARENT LEDS

Ultra-clear and ultra-thin, high-transparency and hightemperature resistant high-end materials are used.

The light board is perfectly designed to easily achieve a permeability of up to 80%.

## E-POSTER

Your display Superpower. Unleash your vision. Transform any space into an immersive experience with E-poster's revolutionary display technology

# TRANSPARENT LED

## HOLOGRAPHIC INVISIBLE SCREEN

Ultra-clear and ultra-thin, high-transparency and high temperature resistant high-end materials are used. The light board is perfectly designed to easily achieve a permeability of up to 80%. The overall mounting without a structural skeleton, the screen body can be spliced left and right, up and down, and can achieve a display height or width of 2.4-3 meters. Commercial window, glass curtain wall and other indoor and outdoor scenes.

Holographic Invisible Screen  
High definition, real invisibility.

## KEY FEATURES

### TRANSPARENT + INVISIBLE

The whole screen is transparent without frame; it is seamlessly spliced in a large area; the back side is invisible without floodlight.

### HIGH BRIGHTNESS + CONTRAST

9,000:1 (high contrast),  
5,000cd/m<sup>2</sup> (high brightness),  
dazzling and eye-catching.

### HOLOGRAPHIC 3D SUSPENSION IMAGES

Display effect of 3D holographic  
and spatial suspension images.

# E-POSTER

## YOUR DISPLAY SUPERPOWER

The EP poster is a standalone, fully autonomous digital signage display. It can be used either as a freestanding structure (with optional locking casters) or as a digital poster installed to a wall or suspended from the ceiling in any orientation. Its direct-view LED display ensures readability even in bright environments, and a strong plexiglass cover protects its surface against long term damage. Each Poster can be connected to WiFi and loaded with new content with just a few clicks. A user-friendly PC application allows the management of your fleet of Poster on a local network, and creating new slides is as easy as designing a PowerPoint slide show. Can be controlled from iOS or Android devices, and an optional, subscription-based cloud platform allows the handling of a larger fleet of device from anywhere in the world.

A standalone, fully autonomous digital signage display.

## KEY FEATURES

### CONTROL ANYWHERE

Control from your laptop, phone or USB — command your display in seconds.

### FOLD . ROLL . SET . DONE

Space-saving foldable design, silent wheels & adjustable height. One-person set-up.

### MILITARY GRADE PROTECTION

COB/GOB armor: Defies dust, moisture, and impacts. It's built to last.
