

Collective Health helps you get more from your health benefits.

Here are just a few ways we can help:

Health benefits, made easy

Want a detailed breakdown of your plan's coverage or cost-sharing info? Just want to know what "cost-sharing" means? That's where we come in.

Do it all from the app

Almost everything Collective Health offers (including your benefits cards!) is on the app. Download on Google Play or the App Store to get started.

Find your doctor

Search for in-network providers by name, specialty, and location through my.collectivehealth.com, or the Collective Health mobile app.

We're here to help

If for some reason our site or app can't help, our Member Advocates are just one secure message or phone call away.
