

Trowel Caddy Product Sheet

RUGGED TRANSPORT. RELIABLE PROTECTION. BUILT FOR THE JOB.

PRODUCT OVERVIEW

Trowel Caddy is a purpose-built transportation system designed specifically for walk-behind concrete power trowels. Built by contractors for contractors, it helps you move, load, and protect your trowel with ease — on and off the job site.

Say goodbye to awkward lifting, bent handles, and cracked housings. With Trowel Caddy, your trowel rolls like a cart and stores like a pro.

KEY FEATURES

-  Fits Most 36–48" Walk-Behind Power Trowels
-  Flat-Free Tires — Handles gravel, ramps, and job sites with ease
-  Steel Welded Frame — Powder-coated for maximum durability
-  Fast Setup — Mount your trowel in seconds, no tools required
-  Compact Footprint — Easy to store in trailers, trucks, or shop floors
-  Patent-Protected Design - Engineered and manufactured in the US

WHO IT'S FOR

CONCRETE CONTRACTORS

Make solo transport possible – Avoid damage, wasted time, and awkward loading. Trowel Caddy turns your trowel into a one-person job.

RENTAL YARDS

Reduce damage claims – Protect your trowels between jobs and streamline equipment handling with a secure cradle and flat-free mobility.

DEALERS & DISTRIBUTORS

Add a value-added upsell – Offer your customers a simple, rugged, American-made solution that extends the life of their trowels.

GET THE CADDY THAT WORKS AS HARD AS YOU DO!
