Sign Fabricator

Position Summary:

A Sign Fabricator is responsible for manufacturing high-quality signage from drawings and specifications. This position works hands-on primarily with aluminum and steel, along with other materials to fabricate signs that meet Stratford Sign Company's standards for quality, durability, and safety.

This role involves the fabrication of sign cabinets, monument signs, pylon signs, aluminum structures, and other custom sign products. The ideal candidate is mechanically inclined, takes pride in their workmanship, can work independently, and understands the importance of building products correctly and efficiently.

Daily duties include, but are not limited to:

- Read and interpret fabrication drawings and job specifications.
- Fabricate aluminum & steel components using welding, saws, shears, brakes, drills, grinders, & other shop equipment.
- Fabricate sign cabinets, monument sign components, pylon sign components, and other custom sign structures.
- Prepare fabricated components for painting and finishing.
- Coordinate with production & project managers to ensure jobs are completed correctly & on schedule.
- Identify fabrication issues or drawing discrepancies before they become larger production issues.
- Properly maintain tools and fabrication equipment.
- Follow company safety procedures and use required personal protective equipment.
- Perform other fabrication and production duties as needed.

Requirements:

- Strong mechanical aptitude and ability to work with hand and power tools.
- Ability to accurately read a tape measure and understand fabrication drawings and dimensions.
- Strong attention to detail and commitment to quality workmanship.
- Ability to troubleshoot problems and develop practical solutions during fabrication.
- Dependable attendance and ability to consistently meet production schedules.
- Willingness to learn new fabrication methods, materials, equipment, and sign-building techniques.
- Ability to safely lift and handle materials and perform physical shop work throughout the workday.
- Commitment to maintaining a safe, clean, and organized work environment.

Preferred Experience:

Experience in the sign industry, metal fabrication, architectural products, construction, or custom manufacturing is preferred.

- Prior experience in: Aluminum fabrication, Steel fabrication, Welding, Metal brakes, shears, saws, and other fabrication equipment, Automotive, construction, welding, machining, or similar skilled trades.

What Success Looks Like:

A successful Sign Fabricator at Stratford Sign Company consistently produces quality work that is accurate, efficient, and ready for the next stage of production. Ultimately, success means producing signs that Stratford Sign Company can confidently send to the customer or installation crew knowing they were built correctly, built efficiently, and built to last.
