Summer School

CAMBRIDGE | LONDON | NEW YORK | OXFORD | SAN FRANCISCO | SINGAPORE | SYDNEY | TOKYO | TORONTO

Academic Insights is our flagship academic summer programme, designed for ambitious secondary school students who want to experience undergraduate-level study before they apply to university. Delivered on leading campuses including Oxford, Cambridge, Toronto, Sydney and Singapore, it offers a rigorous introduction to academic life in some of the world's most respected university cities.

All classes are taught by expert tutors from world-leading universities such as Oxford, Cambridge and other top institutions. Each subject follows a carefully designed summer school syllabus, combining theoretical foundations with practical application. Through small-group teaching, discussion-led sessions and a supervised personal project, students build subject knowledge, academic confidence and the skills required for future success.
