REDWOOD
INC.

Redwood Garden Products

Some the products we create in our facility in Sacramento:

Our garden doors offer the distinctive style and security of a massive, solid redwood door.

We have beautiful Adirondack furniture, including chairs, loveseats, rockers, side tables and footrests---all redwood, of course.

Our garden bridge can emphasize a small water course or continue a path through the garden.

To enhance an entry or transition in the garden, we offer a wide selection of arches and arbors in the form of precut kits for easy assembly.

Our classic picnic tables are solid, sturdy and handsome. Traditional square or rounded corners are available. A perennial favorite.
