

FTA70

FTA70 Pet Cremator

The FTA70 is a fully automatic gas-fired cremator featuring an innovative split chamber design that creates two independently controlled zones within a single unit. The optional removable partition allows operators to switch seamlessly between communal and individual cremation. With dedicated burners and air extraction systems for each zone, the FTA70 delivers flexibility for the needs of every customer.

Abatement

Single, double and triple abatement options.

70kg Per Hour

Average cremation time

24/7 Operation Capacity

No downtime between cremations.

Fully Automated Controls

Interface enables fully automated operation.

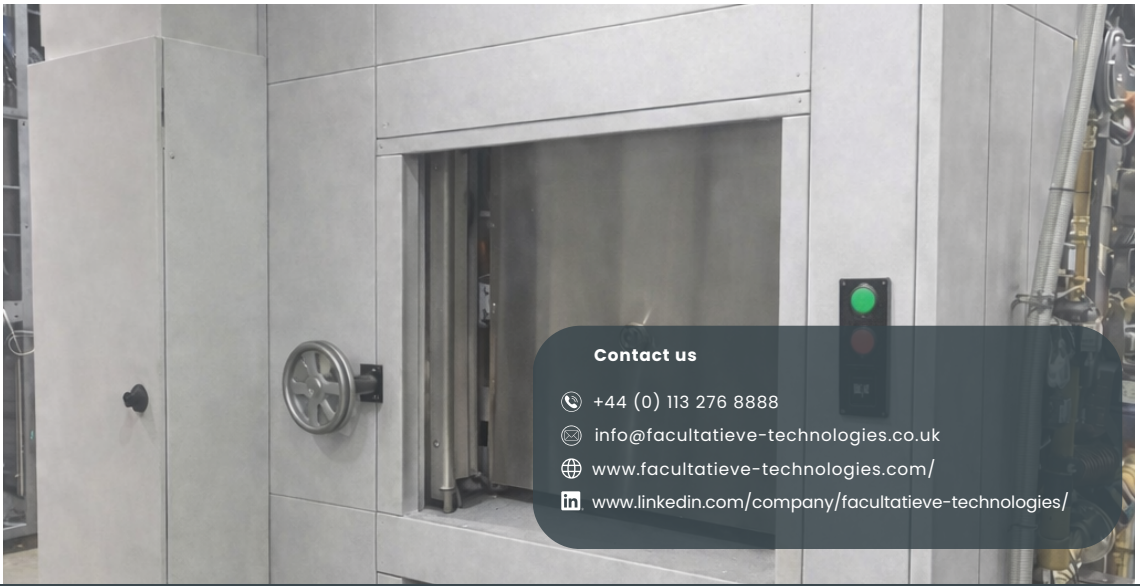

Adaptable Model

Fully adaptable for abatement and building access requirements.

Split Chamber Cremation

1 individual chamber with a removable partition wall.

Low Total Cost Of Ownership

The FTA70 is designed for exceptional efficiency, delivering low maintenance and running costs that translate into a reduced total lifetime cost. Built by industry experts, it combines advanced engineering with an expected lifespan of over 20 years. When paired with our tailored maintenance packages, the FTA70 ensures your total cost of ownership (TCO) stays as low as possible. Contact our team today for a personalised TCO calculation.
