

TECHNICAL DATA SHEET

CITRUS FG

1277A | Citrus FG Heavy-Duty Degreaser

Citrus-based degreaser for compatible hard surfaces

PRODUCT OVERVIEW

Chem-Pak's 1277A Citrus FG is a heavy-duty degreaser formulated to remove oil, grease, dirt, and food residues from compatible equipment and hard surfaces. Its non-caustic formula combines a biodegradable citrus solvent with additional degreasing ingredients and a surfactant to enhance degreasing performance and facilitate water rinsing. Suitable applications include machinery, tools, worktables, and other solvent-compatible metal surfaces.

Key Features and Benefits

- Heavy-duty degreasing performance
- Biodegradable citrus solvent
- Additional degreasing ingredients and a surfactant
- Non-caustic formula that facilitates water rinsing
- Helps remove oil, grease, dirt, and food residues from compatible hard surfaces

Typical Applications

- Machinery, tools, and worktables
- Compatible hard surfaces and solvent-compatible metal surfaces
- Test surface compatibility before use
- Do not use where direct food contact may occur

TYPICAL PROPERTIES

Property	Typical Value
Flash Point	113°F
Refractive Index	1.4705
Boiling Point	325°F
Kauri-Butanol Value	59.5
Acid Number	0.03 mg KOH/g
NSF Nonfood Compounds Category	K1
Net Weight per Aerosol	14 oz
Net Volume per Aerosol	20 oz
Color	Clear
Odor	Mild orange

DIRECTIONS TO USE

1. Shake can well before use.
2. Spray liberally onto surface and brush or scrub.
3. For difficult soils, allow product to sit for several minutes, then brush or scrub.
4. Do not use where direct food contact may occur.

STORAGE, HANDLING AND SAFETY

Form	Aerosol
Safety Information	Do not use where direct food contact may occur. Use with adequate ventilation and according to applicable facility procedures. Consult SDS before use.
Technical Note	Always review the current SDS and product label before use. Suitability should be confirmed under actual operating conditions.
