

Halo 2.3R

The round spa, reimagined.

Designed to stand beautifully on its own, the HALO 2.3R brings generous six person seating into a distinctive 2.3 metre circular form, creating a more social and connected way to enjoy the spa experience.

A considered combination of Rush directional, pulse and knead jets delivers targeted hydrotherapy across the seating positions, while Soothe Flow neck jets add another layer of comfort for deeper relaxation. The large SpaTouch interface, smart Wi Fi connectivity and dynamic LED lighting make it easy to personalise the experience around the way you want to unwind.

Beneath the surface, the 2.3R combines Australian made construction with intelligent filtration, comprehensive insulation and energy smart scheduling to support comfort, durability and everyday efficiency. Its DuraGal structural Australian steel frame, Class 12 plumbing and UV protected cladding are designed for long term performance in Australian outdoor environments.

Specifications

Electrical Requirements	13 AMPS
Dimensions (mm)	2300 round x 900
Water Capacity (L)	1420
Seating	6
Dry Weight (KG)	280

Jets

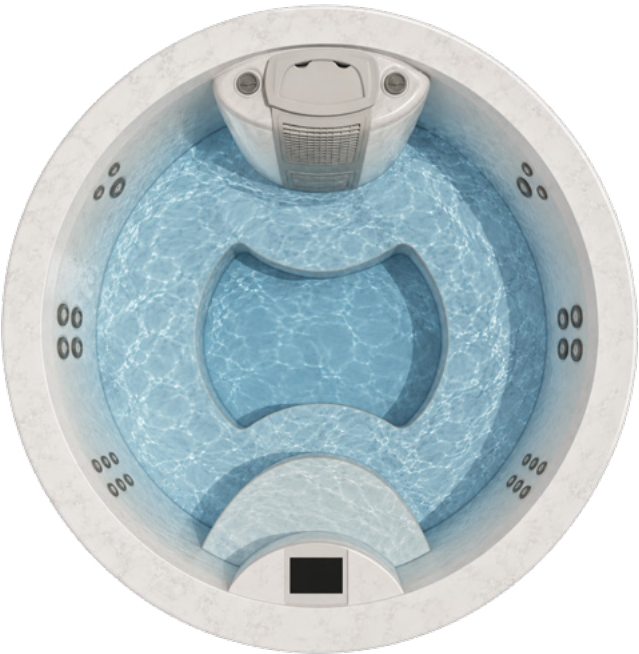

Rush 50 Directional Jet	16
Rush 90 Directional Jet	2
Rush 90 Pulse Jet	4
Rush 90 Knead Jet	4
Soothe flow neck Jet	1
