

Cyber DD Light-Touch

An **outside-in read** on cyber risk. For the deals that don't warrant a full diligence, or won't grant the access for one. Built entirely from what's externally observable and what's in the data room. **No interviews required.**

WHAT WE LOOK AT

<p>■ GOVERNANCE</p> <p>Data-room policy review</p> <p>Certifications, ownership and controls: paper vs. actual practice.</p>	<p>■ EXPOSURE</p> <p>External attack surface</p> <p>Internet-facing services and open ports, misconfigurations, outdated or vulnerable software, plus TLS/certificate, DNS and email security.</p>
<p>■ PRODUCT</p> <p>Technology signals</p> <p>Architecture and product-security posture, as disclosed in the room.</p>	<p>■ VENDORS</p> <p>Third-party exposure</p> <p>The supply chain and partners that inherit the target's trust.</p>
<p>■ CODE AUDIT (optional)</p> <p>Code scanning</p> <p>Automated code scanning of GitHub repositories and their development history.</p>	<p>■ DARKNET SEARCH (optional)</p> <p>Leaked credentials & data</p> <p>Breach corpus, paste sites and dark-web mentions tied to the target.</p>
<p>■ PENTEST (optional)</p> <p>Surgical pentest</p> <p>Targeted, time-boxed exploitation of the highest-risk exposed assets.</p>	<p>■ BRAND (optional)</p> <p>Public footprint</p> <p>Look-alike domains, spoofing risk and forgotten shadow assets.</p>

THE BOUNDARY

IN SCOPE	OUT OF SCOPE
<ul style="list-style-type: none"> + OSINT & attack surface + Full data-room review + Red-flag memo + Posture scorecard 	<ul style="list-style-type: none"> - Management interviews - Internal / credentialed access - Manual code audit - Full penetration test

Need the deeper read? **Step up to the full Cyber DD.** Same team, more depth.

WHAT YOU GET

- ▶ **Focused red-flag memo:** what's a real risk, what it costs to fix, and where the upside is.
- ▶ **Posture scorecard:** every domain scored on exposure, control maturity and remediation effort.
- ▶ **Every finding triaged to a deal action:** **price it, protect against it, or improve it** straight into your model and the 100-day plan.

WHY INT[CUBE]

<p>30+</p> <p>Dedicated cyber DD projects across Europe, LatAm & the US.</p>	<p>Day 0</p> <p>We start the moment the contract is signed. No onboarding, no fluff.</p>	<p>Artifacts.</p> <p>We read engineering reality, not just policies. Decades of hands-on security.</p>	<p>+1</p> <p>Delivered with our tech-DD partner Code & Co. when scope demands it.</p>
