

Sennie (SEN SPECIALIST/NANNY/MANNY) for B16

Additional needs present: Learning Difficulties, Non-Verbal & ASD	Location: Preston Park, Brighton, BN1	Salary: From £18 per hour gross
Live out / in - Live-in when covering overnights Driver: Not essential but preferred Pets: Cat Sole charge	Days & Hours Required: 1-2 weekends a month with overnight support <i>Possible holiday cover to be arranged between the Sennie and family to cover holidays of 7-10 days twice per year</i> Essential Skills / Traits <ul style="list-style-type: none"> • Minimum of 2+ years SEN childcare experience • Experience or confidence using PECS/AAC systems, with willingness to further develop communication support skills. • Calm, patient and emotionally regulated, able to provide consistent support in both relaxed and challenging situations. • Experienced in personal care support, delivered with dignity, sensitivity and encouragement of independence. • Confident supporting community access, including public transport, cafés and leisure activities. • Flexible and reliable, able to work varied hours including evenings, weekends and sleepovers • Able to work independently while maintaining safety, structure and clear professional boundaries. • Good observational and communication skills, with ability to report clearly to parents. • Compassionate, consistent and committed to improving independence and quality of life for B16. 	

About the child/role: B16 is a 16-year-old young person who lives with his two mums and their friendly cat in a comfortable home near Preston Park, with excellent access to local transport links, shops and green spaces. This is a warm and welcoming household, and the family are seeking a Sennie to provide respite support, including time spent with B16 both at home and out in the community, and potentially offering live-in support when required.

B16 attends Downsview Link College during standard school hours and already receives after-school support three days per week. He is non-verbal and has a diagnosis of autism and learning difficulties. He requires prompting and support with most aspects of daily living, including personal care, and would benefit from a consistent, patient approach to developing his independence over time. He is generally healthy, sleeps well, and is described as calm and content in familiar routines.

B16 enjoys a range of simple, meaningful activities, including swimming, relaxing in the hot tub, bus and train rides, short walks, using his iPad, and going out for lunch at cafés or for chips at the pub. He benefits from structured, low-demand routines and familiar, enjoyable experiences that support his wellbeing and engagement. The Sennies worker will play a key role in facilitating these activities, while also gently encouraging independence and participation in daily life. Toileting is an area of ongoing development. The family has made good progress over the past year, supported by the continence service, but B16 continues to require prompting and supervision. The Sennie will support this area with consistency, sensitivity, and openness to introducing new ideas or strategies in line with professional guidance.

B16 uses PECS as his primary form of communication, and the Sennies worker will be expected to support and develop his communication skills using this approach throughout daily routines and activities. The overall aim of the role is to provide high-quality, compassionate care that supports B16's independence, communication, and quality of life, while also giving his parents valuable respite.

Main duties / responsibilities:

- Provide consistent, person-centred support to B16 during scheduled shifts, ensuring safety, comfort and emotional wellbeing at all times.
- Support and develop communication using PECS (and other AAC strategies where appropriate) across all daily routines and activities.
- Prompt all aspects of personal care, including toileting, washing and dressing, promoting dignity and increasing independence where possible.
- Plan and facilitate meaningful daily activities such as swimming, hot tub use, bus and train rides, café visits, walks and iPad-based leisure.
- Encourage and support development of independence skills in daily living, communication and community.
- Safely support community outings and transport use, ensuring risk is managed appropriately at all times.
- Maintain accurate written records of care, activities, progress and any concerns.
- Communicate effectively with parents, sharing updates on wellbeing, activities and any changes in presentation.
- Provide flexible support across varied working patterns, including evenings, weekends, sleepovers and extended holiday cover where needed.
