Essential Skills/Traits:

- 2+ years SEN childcare experience
- Trauma-informed and emotionally attuned
- Confident in ability to support care routines, including taking their medication
- Comfortable supporting children with sensory sensitivities, particularly around clothing, noise and environment
- Full, clean UK driving licence
- Calm, boundaried and emotionally regulated
- Experienced supporting children with restricted eating and food aversions
- Able to support executive functioning — time management, self-care routines, organisation and homework
- Comfortable around dogs

About the Role & Family

SENNIES is delighted to support a loving and committed family based in Chislehurst in finding an experienced, emotionally attuned Sennie for their three daughters. All three girls are Autistic with additional needs, each with their own very individual profile and set of strengths and challenges. The family's current nanny is leaving and they are looking for the right person to step into a long-term role — three days per week.

The younger two children attend a school which is quite a distance, the older child has SEN transport. So driving is a central part of the day — a full, clean driving licence is essential and a car can be provided. Mum is at home and will work collaboratively with the Sennie. Mum is looking to return to work/further study.

About the Children

G12 is a really bright and imaginative young person who loves physical exercise and has a genuine passion for politics and current affairs. She can swing between presenting as quite introverted, to being very bubbly and energetic.

G12 is Autistic and also has ADHD, dyslexia, dysgraphia and anxiety, as well as Juvenile Idiopathic Arthritis (JIA) — an autoimmune condition for which she takes immunosuppressant medication. Because of her immunosuppression, she is particularly susceptible to skin infections and hygiene support is important. The Sennie will need to support her in managing her morning and evening medication routines consistently and independently over time.

Medication (G12): Sertraline, melatonin, liquid iron, migraine supplements, leflunomide and Yuflyma (immunosuppressants for JIA). Full guidance from the family.

G10 is an extremely bright and academically able girl who loves puzzles, riddles and science, and is very talented at art and crafting. She has a strong attachment to the family dog. G10 is Autistic with ADHD and anxiety, and has a complex social, emotional and mental health profile. At times, she may internalises difficulties and can direct that inward as very negative self-talk and strong emotions. She has a restricted diet and requires patient, non-pressured support around food.

Medication (G10): Melatonin and magnesium supplements.

G7 is the quietest and most cuddly of the three — a gentle homebody who loves looking after her soft toys and babies, and enjoys making drinks and caring for the people around her. She has a warm and nurturing spirit and loves it when the family feels settled and happy.

G7 is Autistic with ADHD, dyslexia and selective mutism. Communication with others outside the home remains her biggest challenge. She has sensory sensitivities, particularly around light and sound, and finds getting ready and leaving the house for school a challenge at times. .

Medication (G7): Antihistamine and sometimes melatonin.

Main Duties & Responsibilities

- Support morning routines, including dressing, sensory challenges and school preparation.
- Drive for school drop-offs and pick-ups, extracurricular activities
- Support G12 with medication and care routines
- Support all three girls with emotional regulation and transitions, adapting your approach to each child's needs.
- Support homework
- Encourage engagement in preferred activities
- Manage children's laundry, organise belongings and maintain tidy bedrooms and shared spaces.
- Plan and prepare meals for the children and family, and support bathtime and bedtime routines.
- Liaise daily with Mum and work collaboratively with schools and other professionals

Who This Role Would Suit

- An experienced Sennie with great understanding of special educational needs
- Someone emotionally resilient, regulated and deeply patient
- Someone with experience of demand avoidance and restricted eating or willing to learn
- Someone looking for a long-term, committed role — these girls need consistency and trust above all else
- An individual who finds genuine fulfilment in working with complex, brilliant children and who brings warmth, creativity and calm to every interaction
