Date of birth: 20.09.1986
Nationality: Mexican
Swiss Residence Permit

I'm a designer that generates and develops concepts, furniture, objects and experiences. I believe that design is not separated from its context and in this spirit my context has always informed, inspired and fed my design choices. My work is sustained by my interests, surroundings, experiences, beliefs and obsessions. I try to constantly generate new concepts that can lead to interesting commercial or business consequences and find myself often researching and sketching out new possible scenarios and applications.

Work Experience

BOTTEGA VENETA

Space & Objects
Internship

Milano, Italia
2020 - Present

Creative ideation and overall store and object conceptualization. Reporting to Space & Objects and Architecture Directors. Design of the brand's Home Collection. Support in creating visuals and designing various objects for Art Department.

PIRWI

Senior Industrial Designer
Head of Product Development

Mexico City, Mexico
2012 - 2019 (7 years)

In charge of new product lineup, design assistance, engineering (development) and launch. Lead a small team of designers in the concept definition of furniture pieces. Collaborated closely with engineers, manufacturers and craftsmen and was responsible for creating technical drawings and production packages. Presented these collaborations to the partners and clients. Programmed the brand's current website.

HUMO

Co-founder
Design lead

Mexico City, Mexico
2016 - 2019 (3 years)

Co-founded the furniture brand HUMO as a side project. Assumed the role of the design leader and was in charge of conceptualizing and engineering the brand's first and second collection. Exhibited in Mexico's Design Week and in Mexico's Pavillion at NYC's Wanted Design.
