FERNANDO RIVERO SOSA

FERNANDO RIVERO SOSA. Senior product designer, specializing in the design of objects, accessories, and furniture, based in Paris. Holding a Master's degree in Design for Luxury and Craftsmanship from ECAL, I have spent over 12 years developing creations that blend craftsmanship, excellence, and contemporary aesthetic culture, ranging from commercial collections to exceptional bespoke pieces. My work is rooted in an approach that respects the DNA of luxury Maisons, integrating a strong artistic sensibility, a deep product culture, and close collaboration with both internal and external workshops. I have collaborated with international Maisons and studios such as Louis Vuitton, Bottega Veneta, Studio Urquiola, La Prairie, and Zara Home, overseeing aesthetic refinement and project development in demanding environments, successfully balancing creativity, industrial constraints, and quality of execution.
