

Godzilla In The Kitchen - Tech & Accommodation Rider

1. Technical Requirements:

In general, we are a 3-piece consisting of Bass/Vocals, Guitar and Drums, travelling with their own sound tech.

- We provide the whole backline as well as our own IEM Rack
- IEM Rack must be near the in-house stagebox
- The signal is getting run through our splitter and then to the in-house stagebox

The Channels are sorted as follows:

Channel	Source
1	KickIn
2	KickOut
3	SnareTop
4	SnareBottom
5	RackTom1
6	RackTom2
7	FloorTom1
8	FloorTom2
9	Ride
10	HiHat
11	OH
12	GuitarL
13	GuitarR
14	BassDI
15	BassCab
16	Voc

2. Stage Set-up

3. Accommodation:

We are usually a travel party of four, since we bring our own sound tech. If he is not present, we will inform beforehand.

Food: We have one diabetic member in the band and our sound tech is vegetarian. For this reason it would be great if there could either be a low carbohydrate food (meat, fish, vegetables..) or if the carbohydrates (pasta, potatoes, rice...) would be served on the side. If this is not possible, we are also ok with a small food buy-out.

Accommodation: We are happy with any type of accommodation. We are usually 4 people, and we are fine with a band flat, mattresses, couches, hostels or hotels. We do not need anything fancy, as long as a somewhat decent sleep schedule and a bathroom is available.
