

## The problem

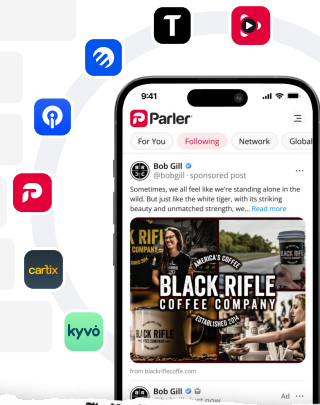

Big Tech's grip on infrastructure, commerce, and communication has exposed a massive opportunity: build the parallel systems that can't be shut down, throttled, or exploited. Americans are hungry for platforms that protect speech, preserve privacy, and put creators and merchants in charge of their own success.

## What's needed

	Censorship-Proof Infrastructure
	Decentralized Commerce
	Privacy-First Apps & Utilities

## The Parler Cloud Technologies solution

- Censorship-Free Social Media
- Digital Wallets & Payments
- Videos & Streaming
- Decentralized Marketplace
- Private Cloud & CDN
- Layer 1 Blockchain
