

## Strap-Tight Band and Buckle Strapping System

The Murray Strap-Tight Band and Buckle Strapping system consists of stainless steel strapping, buckles and tool to connect hoses, or to attach signs to posts.

- Strapping and buckle materials available include AISI grades 201, and 304.

**Other materials may be available upon request**

- Material edge is made without burrs to protect users from injury. The high-quality material will securely tighten without snapping, when properly installed
- Various packaging configurations and coil lengths available upon request
- Applications include: Outdoor and indoor signage, security cameras, petro-chemical plants, thermoelectric power stations, shipyard industry and marine, high pressure rubber type hoses, general industry, railway, aerospace, agricultural machinery, and many others.

### Part Numbers - Strap-Tight Bands

AISI 201	AISI 304	Band Width (in)	Thickness (in)
SCB25X201	SCB25X304	1/4"	0.018
SCB37X201	SCB37X304	3/8"	0.021
SCB50X201	SCB50X304	1/2"	0.025
SCB62X201	SCB62X304	5/8"	0.025
SCB75X201	SCB75X304	3/4"	0.027

Standard roll length is 100 ft. Other lengths available upon request. Rolls packaged in individual dispenser cartons, then in a master carton.

### Part Numbers - Strap-Tight Buckles

AISI 201	AISI 304	Band Width (in)	Thickness (in)
SCA25X201	SCA25X304	1/4"	0.03
SCA37X201	SCA37X304	3/8"	0.11
SCA50X201	SCA50X304	1/2"	0.22
SCA62X201	SCA62X304	5/8"	0.22
SCA75X201	SCA75X304	3/4"	0.22

Buckles packed 100 pcs per bag.

### Installation Tool

Allows for full installation by pulling band through buckle, tightening using this tool, and safely cutting excess banding. Final installation will require a hammer to fold down tabs. Follow installation instructions included with the tool.

Part Number: SCT001
