

Mountain apartment Nad Ryžovnou

2/M
Floor

96 m²
Total area*

BJ12.10
Apartment unit designation

1054 m above sea level

The proper mountaineers always hold their source of strength in high regard. You can also pay tribute to the Ore Mountains, especially if you decide to acquire one of the mountain apartments in the Slovanka residential project – perhaps Nad Ryžovnou. The summit of the mountain is best accessed directly from the settlement of Ryžovna, following the road towards Hřebečná. However, at the highest point, you must turn into the forest and continue through open terrain. It is recommended to stick to the marked hiking trails – they will always guide you back home.

- Currently, the layout of the residential space is being adjusted by the Ivanka Kowalski studio for maximum utilization. The floor plan of the apartment unit will be available by January 2024.
- During Q1/2024, it is still possible to incorporate client modifications according to their requirements for the layout of the apartment unit.

The sale of mountain apartments is managed by the RWProjekt company.

+420 720 027 377
wolf@rwprojekt.cz

The layout drawing of this apartment will be added during January 2024.

*The apartment area is in accordance with the project documentation. The developer reserves the right to make changes. Interior furnishings are not included. The scope of delivery is specified in the standard flat description.
