

PROFESSIONAL

NEW Dulux X-pert Supermatt!

INTERIOR SELF-SEALING LATEX PAINT

Dulux X-pert SuperMatt delivers the durability of an eggshell with the application properties that will make you want to use it on every job. The dead flat finish applies easily to a smooth, uniform appearance that hides well and touches up easily. It is self-sealing and can be applied on walls and ceilings from 4 to 12 mils wet. The combination of its dead flat finish and its ability to be applied at higher film weights combine to allow you to deliver a perfect finish, even over some more challenging drywall jobs.

You can use Dulux X-pert SuperMatt on new construction or maintenance work and it delivers the scrub resistance and the burnish resistance of a high quality eggshell in a dead flat finish, that can be tinted to a variety of off-whites and light pastels.

In the table below you will see a comparison with Dulux X-pert Latex Eggshell which you will know is an excellent product. We have done internal testing vs some of the best latex flats and eggshells manufactured by all the leading Canadian competitors. We are confident that our Canadian R&D team have developed an exceptional finish that sets a new standard in performance.

Dulux X-pert Sheen Comparison

	HIDING	85 deg Sheen	ASTM Scrub	Burnish Resistance	Touch Up
Dulux X-pert Matt 12010	Excellent	3%	Good	Good	Very Good
Dulux X-pert Supermatt 12000	Excellent	1%	Excellent	Very Good	Excellent
Dulux X-pert Eggshell 14010	Excellent	3%	Very Good	Excellent	Good
