

# PALOMA'S BIRDSEYEVIEW AUTOMATION

## Work Smarter. Move Faster. Perform Better.

Paloma's BirdsEyeView (BEV) Automation System provides operators a continuous view of critical pressure control equipment and systems for optimal wellsite performance. With real-time monitoring, remote management, and automated troubleshooting, Paloma's advanced, streamlined solution allows operators to control their wellsite like never before. BEV isn't just an enhancement — it's a game-changer for operators who refuse to settle for the status quo.

**BEV provides operators a “virtual technician” at only 30% the cost of traditional onsite labor**

### REAL-TIME MONITORING

Delivers up-to-date pressure readings, valve positions, and other critical system data

### PREVENTATIVE TROUBLESHOOTING

Provides real-time “health check” and alerts for quick, automated troubleshooting to minimize infield service calls and costly downtime

### FAILSAFE INTERLOCKS

Offers failsafe interlocks and automatic sequencing of flow through processes

### SCALABLE, INTUITIVE DASHBOARD

Displays clear, visual indicators and is adaptable to fit an operator's needs and preferred number of wells

### THREE-PERSON AUTHENTICATION

Ensures accountability and minimizes human error with “digital handshake” between critical personnel—Operator, Company Man, and Engineer

### EFFICIENT DIGITAL DATA CAPTURE

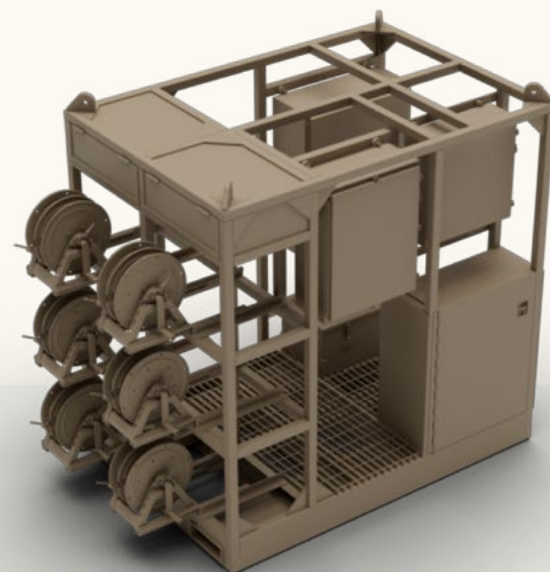

Documents every stage of operations with cloud-based, real time data capture for unmatched accuracy, keeping records simpler and more reliable

### UNIVERSAL COMPATIBILITY

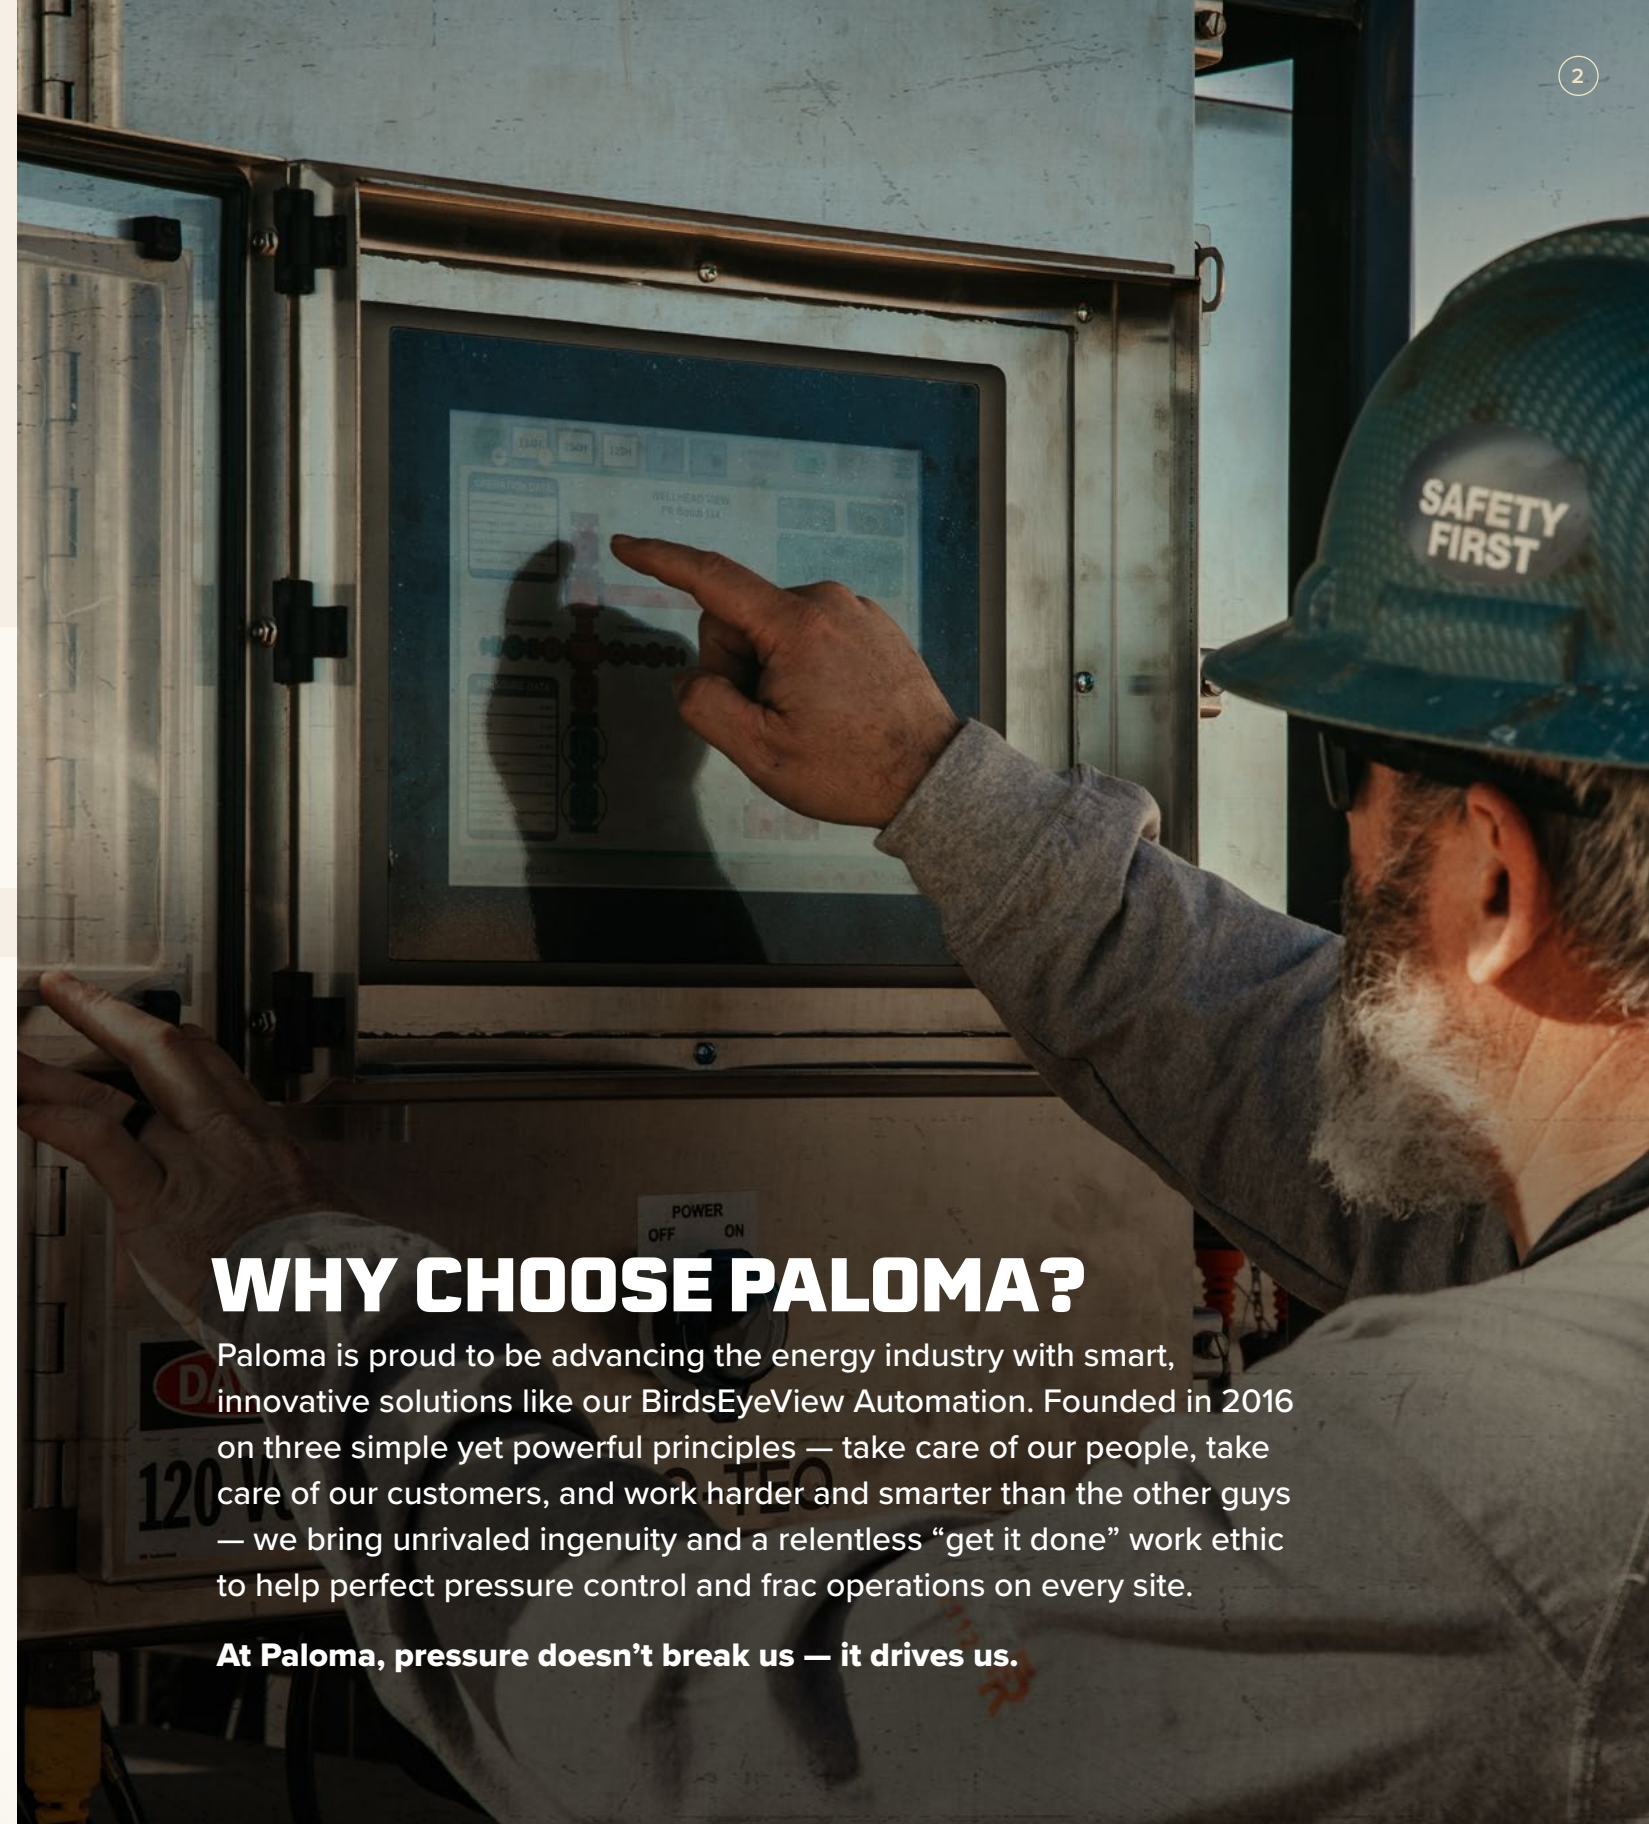

Able manages all key pressure control systems and equipment — not just valves

### SMARTER SYSTEM

Never overengineered with unnecessary features, BEV's powerful simplicity is on point and easy to use

With real-time pressure readings and instantaneous alerts to issues, BirdsEyeView equips operators with industry-leading automation technology to make faster, smarter, and safer decisions.

## WHY CHOOSE PALOMA?

Paloma is proud to be advancing the energy industry with smart, innovative solutions like our BirdsEyeView Automation. Founded in 2016 on three simple yet powerful principles — take care of our people, take care of our customers, and work harder and smarter than the other guys — we bring unrivaled ingenuity and a relentless “get it done” work ethic to help perfect pressure control and frac operations on every site.

**At Paloma, pressure doesn't break us — it drives us.**

Contact us today to learn more about how the BirdsEyeView Automation System is reshaping industry expectations.
