

PRESIDIO®

Enabling smarter work with Presidio

Rethinking the way work gets done

In today's workplace, flexibility, security, and user experience all need to work together. Apple technology is enabling this shift, offering devices that meet the needs of both employees and IT teams.

Delivering lasting value takes more than deploying hardware, it requires strategic enablement, seamless integration, and a partner who can align Apple devices with your business goals.

Presidio helps businesses across Ireland maximise the value of Apple devices with seamless, secure, and scalable solutions. From guided pilots to robust, accessible services, we combine tailored deployment, device management, lifecycle services, and strategic consulting. Whether you're starting out or expanding an established programme, we help you to deliver value and confidence at every stage.

Services: How Presidio makes Apple devices work for you

1 Tailored start: Apple Pilot programme

For businesses starting their Apple device journey, Presidio provides a structured Apple Pilot Programme. We work with you to define goals, deploy securely in a controlled setting, and capture actionable insights. This creates a clear, evidence-based business case for wider adoption. It's a low-risk, high-impact approach designed to help you learn fast and scale with confidence.

2 Device management and security

Presidio combines Apple Business Manager with leading Mobile Device Management (MDM) platforms to simplify management and strengthen security. We enable zero-touch deployment, ensuring every device is enrolled automatically, configured remotely, and kept compliant with your policies. IT stays in control, while users receive devices that are ready to work from day one.

3 Managed services for lifecycle support

Presidio's Managed Mac Services cover the entire device lifecycle, from procurement and provisioning to proactive monitoring, refresh, and secure end-of-life. We manage every detail so your IT teams can focus on strategy, while users enjoy a consistent, reliable experience.

Broader IT integration

Presidio can make integrating Apple devices into your infrastructure even easier. Our team ensures every deployment integrates with your existing IT environment, connecting identity and access management, with cloud platforms and your security and automation frameworks.

The result: a cohesive, compliant ecosystem that scales with your business.

Who we support

Presidio works with businesses at every stage of their Apple device journey, from early pilots to enterprise-wide deployments. We partner with IT, procurement, HR, and digital leaders to ensure Apple device adoption aligns with your broader business strategy.

Whether it's equipping frontline teams with iPads, introducing Mac to knowledge workers, or delivering a consistent experience across departments, Presidio helps you get more from every device.

Why it matters

- **Workforce productivity:** Apple devices are designed to deliver an intuitive experience, helping users stay focused and productive with less IT intervention
- **Modern workstyles:** Flexible, secure tools designed for user needs enable better workflows everywhere
- **Privacy and security are built in:** Every device comes with robust defences against viruses and malware. FileVault makes sure your files are encrypted so others cannot access them. And free security updates help keep your device protected
- **Better user experience:** The right tools drive engagement, performance, and long-term business value

Built for every stage

Wherever you are in your Apple device journey, from first-time deployment to enterprise-scale integration. Presidio supports you at every stage:

Start: Run an Apple Pilot, assess impact, build internal alignment

Scale: Expand deployment, strengthen management, provide user choice

Optimise: Integrate with IT strategy, enable AI workflows, streamline support

We meet you where you are and take you where you want to go.

Ready to take the next step?

Whether you're exploring, scaling or transforming your use of Apple devices. Presidio helps you move forward with confidence.

Let's build a smarter, more human way to work. Together.
