

PRESIDIO®

Scale with confidence. Evolve with intelligence.

As more companies turn to Apple devices to enhance productivity, improve user satisfaction, and support hybrid work, Presidio stands ready as a partner to ensure strategic deployment that delivers.

Smarter way to empower large organisations.

Presidio help you embed Apple devices within your business as a platform for meaningful transformation with scalable services, integrated security, and long-term lifecycle value.

Whether expanding an existing deployment or preparing to scale across departments, regions, or functions, Presidio ensures that every Apple device investment you make translates into operational and strategic advantage.

Why Apple devices

Exceptional user experience drives productivity: Apple devices are intuitive, fast, and reliable supporting users to stay focused and reduces downtime.

Lower total cost of ownership: Independent studies have shown that using Apple devices can deliver cost savings over lifecycle compared to traditional PCs.

Built-in security at every level: Apple's hardware, software, and services are designed with privacy and security at the core from chip-level protection to OS-level controls.

Flexible deployment with zero-touch provisioning: Apple Business Manager combined with Mobile Device Management (MDM) enables seamless setup for remote and hybrid teams.

Employee choice boosts retention and satisfaction: Offering Apple devices as part of a Choose Your Own Device (CYOD) programme supports modern talent expectations and strengthens employer brand.

Consistency across hardware and software: A tightly integrated ecosystem which simplifies device management, application performance, and user support.

Future-ready performance: Apple silicon delivers exceptional power efficiency and performance that scales with demanding workloads while extending battery life and reducing environmental impact.

Enterprise-ready Apple device strategy

Large businesses have complex needs. From global workforce support to compliance obligations, any new platform must integrate seamlessly into the broader IT ecosystem.

Presidio brings deep experience and proven processes to help you:

Scale employee choice models across multiple regions

Optimise procurement and financial models through Apple Financial Services (AFS)

Implement **advanced security and compliance guardrails**

Through **structured onboarding, flexible deployment, and ongoing optimisation**, we help you transition from tactical roll-out to long-term benefit

Extend impact across the organisation

Apple technology is increasingly embedded in mission-critical workflows across industries.

Presidio helps you maximise that impact by tailoring each deployment to your operational landscape and user roles. Whether it's deploying iPad for diagnostics on the shop floor, rolling out Mac to leadership teams and developers, or ensuring field service engineers are connected through secure and resilient devices, we ensure everything is aligned to meet the specific needs of your team.

Comprehensive services designed for scale

Presidio's Apple at Work offering is built to support large organisations at every stage of their journey. Our services include:

Apple at Work

Core services from Presidio

Presidio's services are designed to support your organisation throughout the full lifecycle of Apple device adoption. Our structured approach ensures consistency, flexibility, and scale across every stage:

Full lifecycle device management

Take care of the entire device lifecycle, from procurement and provisioning through to support, refresh, and secure retirement. Our services reduce the internal IT burden and keep your workforce productive and secure.

Zero-touch deployment with Apple Business Manager

Apple Business Manager and MDM enable zero-touch deployment at scale. Devices are enrolled, configured, and shipped ready-to-use, so users can get started immediately with minimal effort.

Secure deployment at scale

Our deployment frameworks ensure devices are not only delivered efficiently but integrated securely into your environment. We align to your compliance and security policies to reduce risk and improve governance.

MDM: fully managed service

Presidio delivers ongoing management and optimisation of your MDM platform, keeping policies current, devices up to date, and vulnerabilities in check. We make managing thousands of Apple devices as simple as managing one.

Remote device provisioning & ready-to-use devices

We provision devices remotely and deliver them fully configured to employees, no matter where they are. This supports flexible workstyles and accelerates time-to-productivity.

Custom application development and integration

Whether you need bespoke apps for specific roles or seamless integration with existing tools, our development and integration services tailor Apple devices to your unique needs.

Flexible procurement with Apple Financial Services (AFS)

Presidio works directly with Apple Financial Services to create a financing solution that works for your business.

Device-as-a-Service (DaaS)

Presidio offers a consistent, subscription-based experience that includes hardware, support, and services in one simple model. It's scalable, predictable, and cost-effective.

Secure, Scalable, Supported

Presidio's approach is underpinned by security, scalability, and hands-on support. We understand the demands of hybrid work, decentralised teams, and rapid change. That's why we build in compliance, monitoring, and manageability from the outset.

Modern devices to modern work

Apple devices are part of a bigger picture: transforming how people work. By pairing intuitive, high-performance devices with the right deployment model, support framework and management tools, Presidio enables a smarter, more human way to work.

Presidio has over 9,000 service engagements and 6,500 clients globally, bringing unmatched expertise to every deployment.

Supporting end user transformation at every level

User expectations have changed. They want intuitive tools, seamless access, and freedom to choose how they work. Presidio helps large organisations support these needs through Choose Your Own Device (CYOD) programmes, user-centric provisioning, and personalised app environments.

Presidio provides solutions that deliver:

- ✓ Faster time to productivity
- ✓ Reduced IT support overhead
- ✓ Improved employee retention and satisfaction
- ✓ Greater autonomy without compromising security

Presidio helps you put users first, without putting IT at risk.

Security, compliance and governance as standard

For large organisations, managing risk is critical. Presidio ensures your Apple device deployments are compliant, visible, and secure. Our integrated MDM services and automated policy controls help meet governance requirements without slowing down operations.

Device encryption and secure boot, to identity integration and remote wipe capabilities, Presidio can provide and build best practice at every level.

Built for Growth, backed by experience

Presidio understands that transformation isn't a one-time event.

Presidio offer scalable models and proactive support that evolve with your organisation.

Whether you're adding **500 new devices or 5,000**, Presidio ensure it is seamless.

We support initiatives across:

- ✓ Hybrid and remote enablement
- ✓ Digital workplace modernisation
- ✓ Workstyle transformation and user-centric IT
- ✓ Workforce productivity and retention
- ✓ Sustainability and cost-efficiency

Built for the long-term

Build out your Apple roadmap, Presidio helps you grow with confidence.

Presidio meet you where you are and help you plan, scale, and optimise for the future. You've made the investment. Now let's make it a competitive advantage.

Presidio offers a unique combination of strategic expertise, technical capability, and operational scale. Presidio deliver the frameworks, services, and support to make Apple a value-generating part of your long-term IT strategy.

Our support ensures Apple devices deliver not just IT benefits, but cultural, operational, and strategic value.

Ready to scale up?

No matter how complex your organisation, Presidio simplifies the path forward. Talk to us today about how to scale with confidence and evolve with intelligence.
