REPRESENTATIVE JEFF HALE

District 24
DeSoto County

October 15, 2025

The Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: MS House Energy Committee – Jeff Hale – Letter of Support

Kosciusko Junction Pipeline Project
Docket No. CP25-547-000
CP25-549-000
Gulf South Pipeline Company, LLC
Texas Gas Transmission, LLC

Dear Secretary Reese:

As Chairman of the Mississippi House Energy Committee, I am writing to express my strong support for the Kosciusko Junction Pipeline Project (“Project”), proposed by Gulf South Pipeline Company, LLC and Texas Gas Transmission, LLC—subsidiaries of Boardwalk Pipelines, LP (“Boardwalk”). The Project will deliver a substantial upgrade to Mississippi’s energy infrastructure by adding 1.175 billion cubic feet per day of natural gas transportation capacity through enhancements to existing pipeline facilities in western Mississippi. This expansion is critical to meeting the growing energy demands of our power generators, manufacturers, and data centers.

Boardwalk has demonstrated a consistent commitment to responsible development and community engagement. During the Federal Energy Regulatory Commission (“FERC”) Pre-Filing process, Boardwalk actively engaged stakeholders through open houses, regular updates, and comprehensive environmental and cultural resource surveys. Their approach reflects a high standard of transparency and land stewardship. The Project will not only improve system reliability and flexibility for energy customers, but also stimulate economic growth, create jobs, and increase local tax revenues. These benefits align with our committee’s mission to support infrastructure that enhances Mississippi’s energy resilience and economic competitiveness.

I respectfully urge the FERC to approve the Certificate of Public Convenience and Necessity for the Project. Its successful implementation will help secure Mississippi’s energy future and promote long-term prosperity for our communities.

Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Jeff Hale".

Jeff Hale
Chairman, House Energy Committee
Mississippi State House of Representatives

Mississippi State Senate

SENATOR JOEL R. CARTER, JR.

Washington, DC 20426

Re: Kosciusko Junction Pipeline Project (Docket No. CP25-547-000 and CP25-549-000)
Gulf South Pipeline Company, LLC | Texas Gas Transmission, LLC

Dear Secretary Reese:

As Chairman of the Mississippi Senate Energy Committee, I have long advocated for infrastructure projects that strengthen our state's energy reliability and economic competitiveness. The Kosciusko Junction Pipeline Project ("Project"), proposed by Boardwalk Pipelines, LP ("Boardwalk") subsidiaries, Gulf South Pipeline Company, LLC and Texas Gas Transmission, LLC, represents precisely the kind of forward-looking investment Mississippi needs.

The Project will expand existing pipeline infrastructure in western Mississippi, adding 1.175 billion cubic feet per day of natural gas transportation capacity. This enhancement is critical to meeting the growing energy demands of our power generators, manufacturers, and data centers—sectors that are vital to our state's prosperity and future growth.

Equally important is the way Boardwalk, through its subsidiaries, has approached this development. Boardwalk has demonstrated a strong commitment to transparency and community engagement throughout the planning and the Federal Energy Regulatory Commission ("FERC") Pre-Filing process. Their efforts to host stakeholder open houses, share project updates, and conduct thorough environmental and cultural resource surveys reflect a responsible and inclusive approach to infrastructure development.

This Project will not only improve system reliability and operational flexibility but also stimulate economic activity across the region. It aligns with our legislative priorities to support infrastructure that benefits both businesses and residents across Mississippi.

I respectfully urge the FERC to approve the Certificate of Public Convenience and Necessity for the Project. Its approval will reinforce our energy foundation and help secure a more prosperous future for our state.

Thank you for your time and thoughtful consideration.

Sincerely,

Joel R. Carter, Jr.
