

MISSISSIPPI ENERGY INSTITUTE

October 3, 2025

The Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: Mississippi Energy Institute Letter of Support

Kosciusko Junction Pipeline Project
Docket No. CP25-547-000
CP35-549-000
Gulf South Pipeline Company, LLC
Texas Gas Transmission, LLC

Dear Secretary Reese:

The Mississippi Energy Institute supports energy infrastructure because new projects enable economic growth, technological innovation, and long-term energy reliability throughout our state. We fully support the Kosciusko Junction Pipeline Project (“Project”), proposed by Gulf South Pipeline Company, LLC and Texas Gas Transmission, LLC—subsidiaries of Boardwalk Pipelines, LP (“Boardwalk”).

This Project represents a strategic investment in Mississippi’s energy future. By expanding and modernizing existing pipeline infrastructure in western Mississippi, the Project will add 1.16 billion cubic feet per day of natural gas transportation capacity. This increase is essential to meet the rising energy demands of power generation facilities, manufacturing operations, and data centers—sectors that are critical to our state’s competitiveness and economic vitality.

Boardwalk has demonstrated a strong commitment to responsible development and stakeholder engagement. Throughout the planning and FERC Pre-Filing process, Boardwalk has kept stakeholders informed through open houses, detailed project updates, and rigorous environmental and cultural resource evaluations. Their approach reflects a deep respect for safety, land stewardship, and community collaboration.

The Project will enhance system reliability, improve operational flexibility, and encourage further investment in Mississippi’s energy and industrial sectors. It aligns with our mission to promote a growing energy sector that benefits all Mississippians.

We respectfully urge the Federal Energy Regulatory Commission to approve the Certificate of Public Convenience and Necessity for this important Project. Its successful implementation will strengthen our energy foundation and support continued economic progress.

Thank you for your consideration.

Sincerely,

Patrick Sullivan, President
