

SECURE Project

Hinds County, MS

INSIGHTS:

Gulf South is an interstate pipeline company that transports natural gas for major utility companies.

The SECURE Project will directly support Southern Companies and Florida Power & Light in the distribution of energy to the public.

In Mississippi, Gulf South has approximately 88 employees and operates 1,650 miles of pipeline and 14 compressor stations safely every day.

Gulf South contributed approximately \$23 Million dollars in ad valorem taxes to the state of Mississippi in 2024.

The SECURE Project is estimated to contribute approximately \$500K in ad valorem taxes to Hinds County in the first full year of operation.

PROJECT DESCRIPTION

Gulf South Pipeline Company, LLC ("Gulf South") is proposing new and upgraded compression facilities for its Southeast Compression for Utility Reliability Expansion project ("SECURE Project") across Mississippi and Louisiana.

In Hinds County, MS, activities include the construction of a new compressor station ("CS"). The SECURE Project will add capacity on Gulf South's system, boosting natural gas flow along the eastern portion of the Gulf Coast region. These activities will help meet energy demands and support power generation in America.

PROJECT TIMELINE

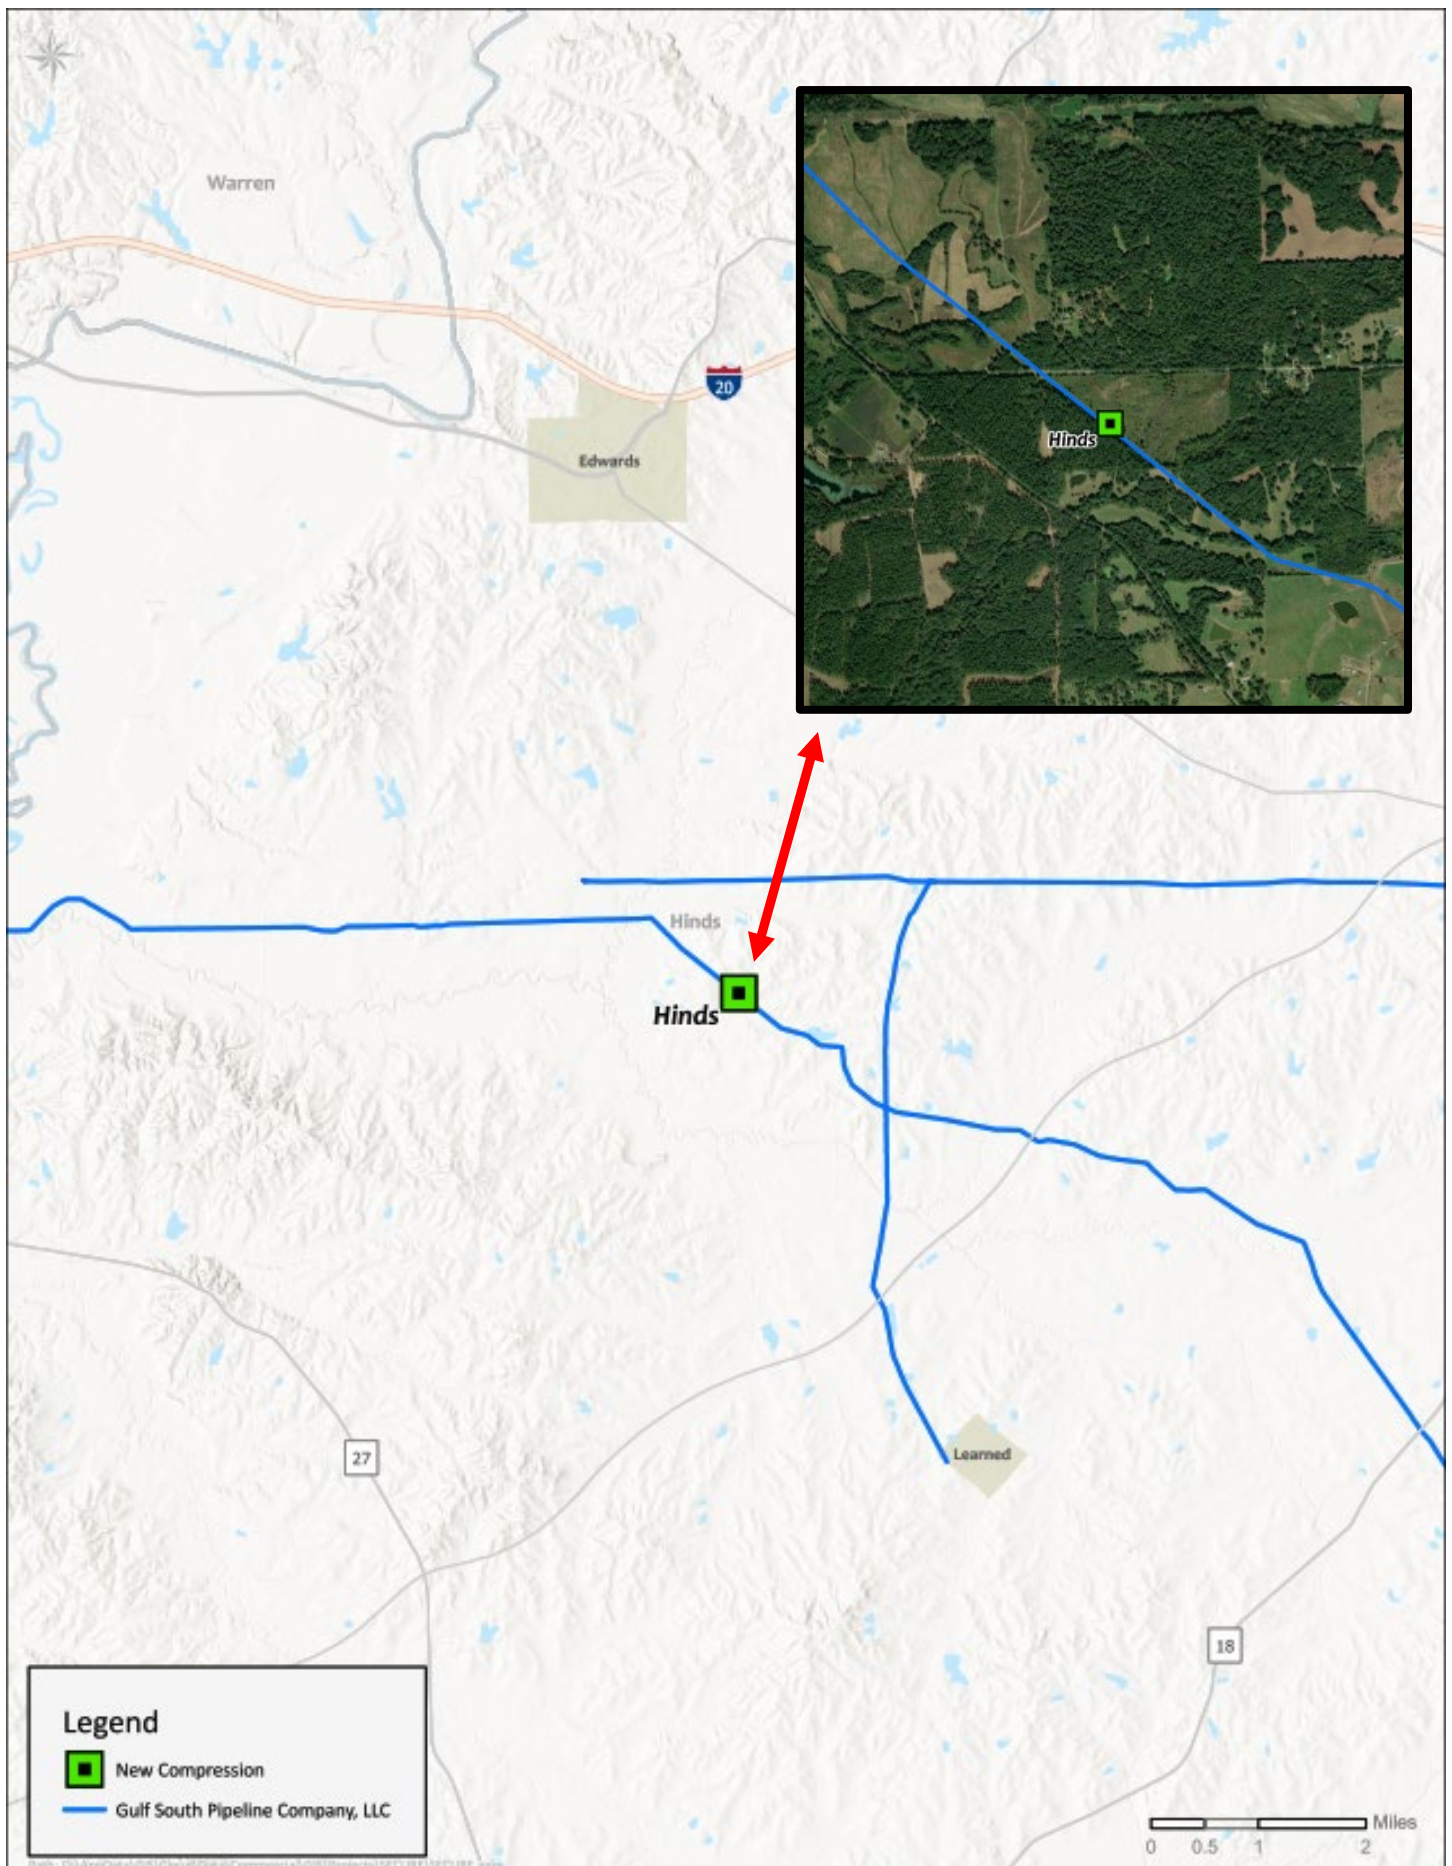

Stakeholder Engagement	Q3 2024 – Throughout project
FERC Application Process	Q2 2025 – Q2 2027
Begin Construction	Q2 2027
Complete / In operation	Q2 2028

NATURAL GAS SAFETY & BENEFITS

Natural gas pipelines are an important part of the United States energy system, playing a critical role in meeting growing energy demands. We are proud to work in an industry that sustains America's energy advantage by providing secure, affordable and low-carbon energy that powers communities and supports progress. We are committed to providing safe and reliable services while protecting the environment. This commitment is made to our customers, employees, and the communities in which we operate as we incorporate environmental stewardship, safety, and compliance into our day-to-day operations.
