

nodeQ - Cookie Policy

Effective Date: 30th June 2025

At **nodeQ**, accessible from www.nodeq.io, we are committed to protecting your privacy and ensuring transparency in how we use cookies and similar technologies. This Cookie Policy explains how and why cookies are used by nodeQ.

What Are Cookies?

Cookies are small text files placed on your device (computer, smartphone, tablet) when you visit a website. They are used to store information about your visit, preferences, and actions to improve your user experience.

How We Use Cookies for telaQ

We use cookies and local storage mechanisms within our platform **telaQ** to support secure and efficient user interactions. Specifically, we use:

- **Authentication Token:** A cookie is stored to identify and authenticate users securely while using telaQ. This helps ensure that access is granted only to authorized users during an active session.
- **User Session Details:** We store session-related data in the client's browser cache to maintain context and continuity while the user navigates through telaQ.

These cookies are **strictly necessary** for the functionality of telaQ and cannot be disabled through standard cookie preference tools without affecting the user experience.

Types of Cookies We Use

Cookie Type	Purpose	Duration
Authentication	To identify and validate logged-in users	Session-based
Session Management	To maintain user preferences and activity states	Session-based

Note: These cookies do not store personal data such as names, email addresses, or passwords.

Your Choices

Because the cookies used for telaQ are essential to its secure operation, they are required for the service to function properly. If you choose to disable these through your browser settings, telaQ may not work as intended.

You can control or delete cookies through your browser settings at any time. However, please be aware that doing so may impact your ability to use telaQ or related services.

Updates to This Policy

We may update this Cookie Policy from time to time. Any changes will be posted on this page with a revised "Effective Date."

Contact Us

If you have any questions about our use of cookies or this policy, please contact us at: info@nodeq.io
