Ministry Day Planning Guide for Serving the Esperanza Community.

About Esperanza

These communities are composed of families living in extreme poverty outside of the Tijuana dump. Serve interns will lead your group out to the community where you will break up into teams of 3-5 people. Those teams will then walk through the neighborhood. This is a time of prayer over the families, the community, and the church. As you come upon adults or children, offer a sandwich and water bottle to the individuals, and have a conversation with them. This is a time that you and your team are able to minister to the community by pouring out the love of Christ that is within us.

Plan for about 150 people (Budget for spending a minimum of \$300)
