

EMPLOYMENT INNOVATIONS

Employment Innovations (EI) is a diversified and progressive provider of HR related services including recruitment outsourcing, payroll, legal and employee reward programs.

With offices in five cities, EI was listed as one of Australia's Most Innovative Companies in 2014 and, in 2013, was named one of Australia's best employers in the highly regarded Aon Hewitt survey.

Their team of experts comprising employment lawyers, HR consultants and superannuation and payroll experts help a wide range of clients from local small businesses to national corporates.

ISSUES PRIOR TO DWR ENGAGEMENT

When Employment Innovations expanded its suite of services and experienced significant growth during 2013 they decided to implement a business platform that was as dynamic as they were.

"Throughout 2013 and 2014 we secured the Asia Pacific rights for some powerful new workforce solutions and, coupled with excellent organic growth, our headcount grew significantly at the same time," explains CFO, Rebecca Day.

"We needed to create meaningful dashboards and generate accurate, relevant reports so we could monitor and assess existing business activity and also identify lead indicators to ensure continued growth."

THE SOLUTION

- "We needed business software that would allow us to run multiple functions yet give us a company-wide view of all activity in real time. Netsuite was the standout candidate," explains Rebecca.
- Once we implemented Netsuite we were also conscious of getting the very most out of the system and ensuring it was as user friendly as possible for our team.
- DWR came highly recommended and we are very happy we made the decision to partner with them.
- They really are subject matter experts when it comes to Netsuite implementation, configuration and performance.

THE RESULT

- Increased visibility from all divisions
- Tracking client touchpoints
- One source of truth for the entire business
- Reliable data, visible in real time
