

PARASCHIV CONSTANTIN

Biochemist

About Me

My desire for finding out more about the nature around us, intersected with my admiration for medicine, brought me to the Faculty of Biology. I am a person eager to explore and live through new experiences, as I am outgoing and determined when it comes to my deep passions.

Experience

County Emergency Hospital "Dr. Pompei Samarian" Călărași, Romania

Internship inside a medical lab, consisting in 60 hours of work under the surveillance of the laboratory doctor. During this time I was able to gain hands-or experience for using the laboratory instruments and managing medical antibiograms.

MedLife Romania

Internship in a medical laboratory focusing on human samples analysis. I focused my work on the bacteriology and hematology departments.

Laboratory Practice

Honing my practical skills during several laboratory activities taking place during the school program, as well as the work for my bachelor thesis.

Skills developed: Good Laboratory Practice; Electrophoresis; PCR; Spectrophotometry; MTT Test; Cell Culture Handling Techniques; Nucleic Acids Extraction; Compound dosage.

Education

University of Bucharest

Bachelor of Biology
2021 - 2024
