The Compressed Air Experts

NGS-7.5VS

Variable Speed Rotary Screw Compressor

Industrial Performance. Intelligent Efficiency.
Engineered for Reliability.

NGS-7.5VS Key Benefits

Energy-efficient airend

Premium IE3 motor

Advanced controller

Low noise operation

Heavy-duty build quality

3 year warranty

Technical Specifications

No.	Item		Unit	Parameter
1	Air flow/Working Pressure		(L/S) / BAR	15 / 10
2	Ambient temperature		℃	-5～+45
3	Cooling method			Air-cooling
4	Exhaust temperature		℃	≤Ambient temperature+15
5	Lubricating oil quantity		L	3.3
6	Transmission method			Direct
7	Gas flow control method			Loading/unloading
8	Gas oil content		ppm	≤3
9	Noise		dB(A)	72±2
10	Lubricant Type			46 grade mineral oil
11	Safety valve set pressure		MPa	Rated working pressurex1.1
12	Motor	Power	kW	7.5
		Speed	rpm	2900
		Starting Method		Inverted
		Voltage/Frequency	V/Hz	415/50
		Protection Level/Insulatior		IP55, Grade F
12	Fan	Power	kW	0.12
		Voltage/Frequency	V/Hz	415/50
		Speed	rpm	1440
		Air Volume	m3/h	2100
14	Dimensions		mm	890*650*810
15	Weight		kg	210
16	Outlet pipe diameter		in	G 1/2
