

Decmil Prisons

Decmil Construction

Foundations and external works across multiple prisons

Decmil Construction was engaged by the Ministry of Corrections to deliver new facilities at five prisons, including Christchurch Women's, Christchurch Men's, Rolleston and Rimutaka in Wellington. Farrell Construction was brought on board to provide specialist foundations and external works. Our scope included foundations, hardstands, footpaths, courtyards and assembly areas.

With an average of 40+ staff across the sites, Farrell supplied the resources and expertise needed to meet programme demands. Foremen and trade-qualified carpenters ensured quality delivery, working collaboratively with Decmil to complete the projects on time and to the required standard.
