

Welcome to **Sixth Form/College** and ***congratulations*** on taking this **next step!**

As part of your sixth form/college experience, you'll be using **Springpod**, a free careers platform designed to help you explore your ideas, gain experience, and develop the skills you'll need for life after sixth form/college. Whether your next step is an apprenticeship, university, or something different, Springpod will give you a head start.

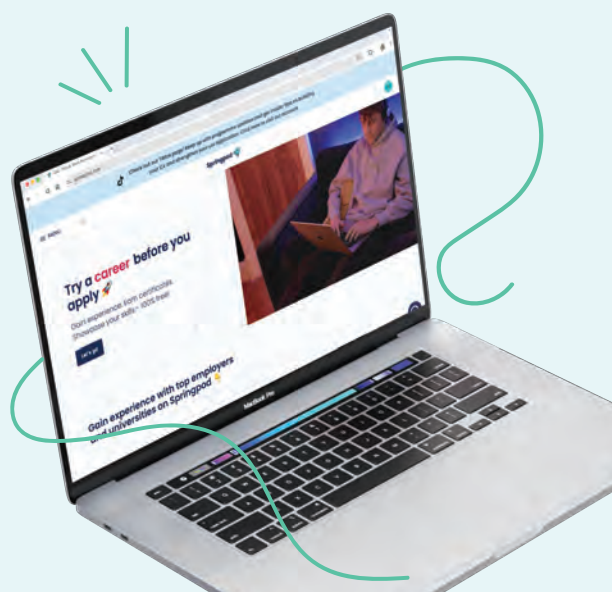

By creating your account now, you'll be able to:

- ✦ Take part in interactive programmes alongside your studies.
- ✦ Connect with leading employers and universities who are ready to support you.
- ✦ Find about what careers are really like behind the scenes before you make any decisions.
- ✦ Discover opportunities that will help your future applications stand out.

Getting involved early really pays off. Students who start straight away often benefit from exclusive extras such as invitations to events, activities, and even in-person work experience. These opportunities are only available to students who are active on Springpod - meaning you could be the first in line for events, placements or employer-led initiatives.

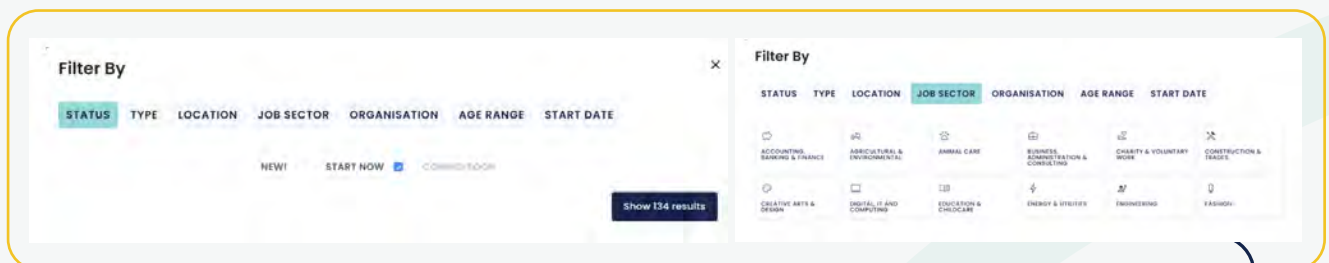

You can take part whenever it suits you. Springpod is designed to work around your studies, part-time job, and enrichment activities like sport, so it's easy to fit in alongside your busy schedule.

We know it can take a little time to settle into sixth form/college life, but when you're ready, Springpod is here to help guide you. Don't wait too long though - the earlier you start, the more experiences you'll collect - giving you a real advantage when it comes to applications.

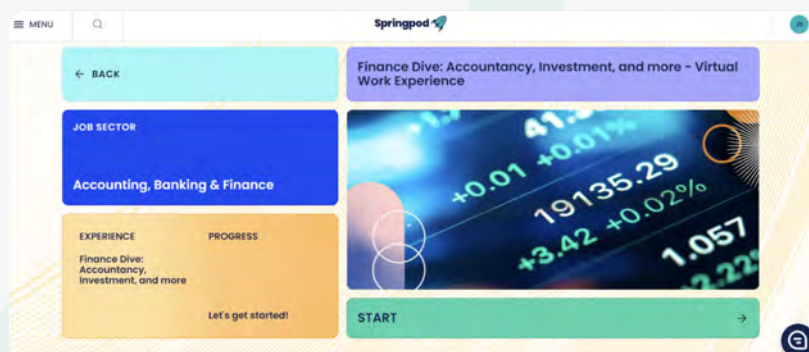

Create your Springpod **account** *today* and **start** exploring what's possible!

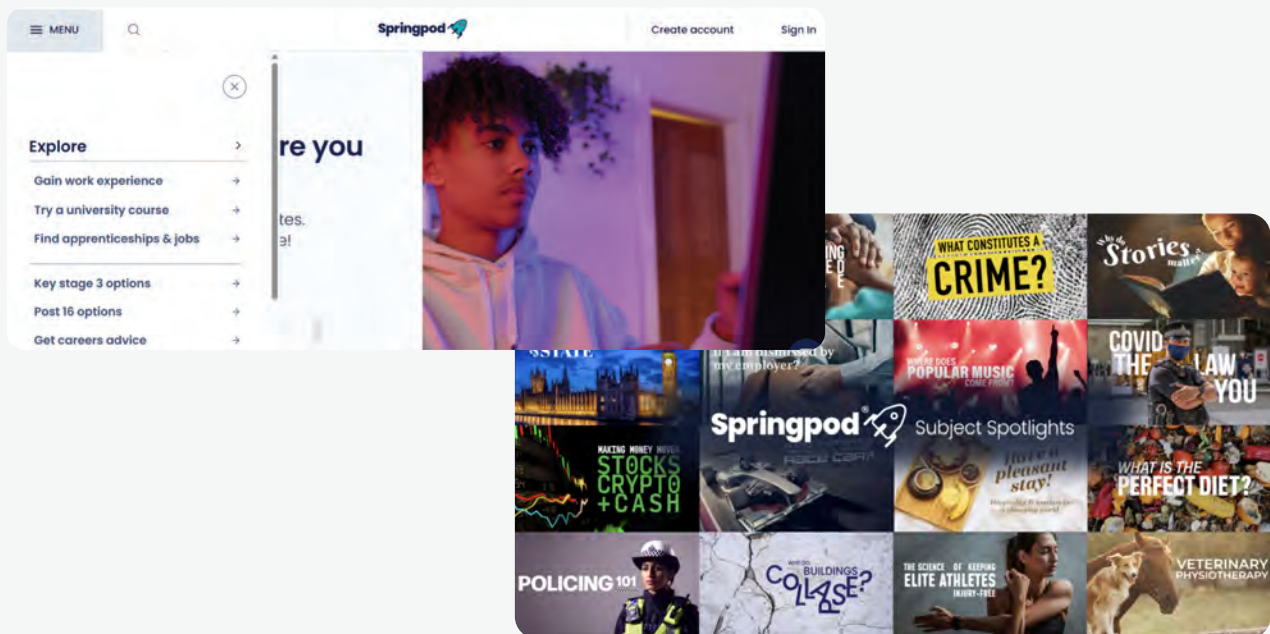

- 1 Create your **account** [here](#) or **log in** [here](#).
- 2 **Explore work experience** programmes [here](#). A wide range of experiences is available, including Law, Psychology, Engineering, Dentistry, TV and Film, Finance and Accountancy, Business Management and Technology to name just a few!
- 3 Use the filters to select '**Start Now**' if you want to start straight away. '**Coming Soon**' will filter those programmes that are set to start on a certain date. You can apply but will have to wait until the start date.

- 4 You can use the filters to search for those that match your interests in **Job Sector**.
- 5 Click **Start** on the programmes you want to complete and your experience will load. Work your way through the modules completing any required tasks and activities. Enjoy!

- ⑥ Always go to My Virtual Work Experience on your dashboard to find your programmes
- ⑦ **For those wanting to explore university** Springpod offer a range of university subject spotlights which you can view [here](#). These are fantastic for providing insight into course content and strengthening an application. They are on-demand and can be completed at any time.

- ⑧ Once you have completed your experience and your work has been approved your certificate will be available to download. Just click on My Achievements on your dashboard.

💡 *Your future starts now. Create your Springpod account today and take your first step towards experiences, opportunities, and connections that could shape your career. The sooner you start, the more you'll gain.*
