

Career Leaders and Advisers Testimonials: Why We Use Springpod

Maidstone Grammar School for Girls

Aspirations and Careers Lead

"In-person placements can be hard to access without the right connections. Springpod opens up career insights to every student, regardless of their background. The variety of experiences available is brilliant — it helps students discover sectors they may never have considered, all at their own pace. Our Year 12s have told us they feel more confident and informed about the kinds of tasks involved in different jobs."

The Chalk Hills Academy

Careers Lead / Advisor

"I use Springpod with students who struggle in traditional lessons. One Year 10 student refused to attend PE and was frequently in Seclusion. When she started Springpod's Health & Social Care experience, she became engaged, focused, and determined to complete it. It gave her a sense of purpose and helped her realise she wants to become a social worker. Springpod turned things around for her."

St Laurence School

Careers Leader

"We used Springpod with Year 10 students who hadn't secured work placements. Just a couple of days into the experience, their attitude completely changed. They became proactive and motivated — it felt like they were working with us rather than resisting support. Springpod helped them re-engage and start thinking more seriously about their futures."

Springwood High School

Careers Leader

"We used Springpod with Year 10 students who hadn't secured work placements. Just a couple of days into the experience, their attitude completely changed. They became proactive and motivated — it felt like they were working with us rather than resisting support. Springpod helped them re-engage and start thinking more seriously about their futures."
