Snowline Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements
For the three and six months ended June 30, 2024 and 2023
(*Unaudited - Expressed in Canadian Dollars*)

1. Corporate Information and nature of operations

Snowline Gold Corp. (the "Company" or "Snowline") is a Canadian publicly traded mineral exploration company headquartered in Vancouver, BC, that is listed on the TSX Venture Exchange ("TSX-V") under the symbol "SGD". The Company's registered office is 1012 – 1030 West Georgia Street, Vancouver, British Columbia, Canada.

The Company is in the process of exploring its resource properties and has not yet determined whether the resource properties contain reserves that are economically recoverable. The business of mining and exploring for resources involves a high degree of risk and there can be no assurance that planned exploration and development programs will result in profitable mining operations. The recoverability of amounts capitalized for the resource properties are dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of the properties and upon future profitable production or proceeds from the disposition thereof. Changes in future conditions could require material write-downs of the carrying values of resource properties.

2. Basis of Presentation

Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the consolidated annual financial statements for the year ended December 31, 2023, which have been prepared in accordance with IFRS.

The Company's interim results are not necessarily indicative of its results for a full year.

The Company has used the same accounting policies and methods of computation in these condensed interim consolidated financial statements as in the consolidated annual financial statements for the year ended December 31, 2023, with the exception of the mandatory adoption of certain amendments noted below:

Significant Accounting Estimates and Judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions based on current available information that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual results could differ from those estimated. By their nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of future periods could be material.

In preparing these condensed interim consolidated financial statements, the Company applied the critical judgments and estimates disclosed in Note 4 of its audited consolidated financial statements for the year ended December 31, 2023.

New and Amended IFRS Standards that are not yet Effective for the Future Period

IFRS 18 - Presentation and Disclosure in Financial Statements

In April 2024, the IASB released IFRS 18 Presentation and Disclosure in Financial Statements. IFRS 18 replaces IAS 1 Presentation of Financial Statements while carrying forward many of the requirements in IAS

Snowline Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended June 30, 2024 and 2023

(Unaudited - Expressed in Canadian Dollars)

1. IFRS 18 introduces new requirements to: i) present specified categories and defined subtotals in the statement of earnings, ii) provide disclosures on management-defined performance measures ("MPMs") in the notes to the financial statements, iii) improve aggregation and disaggregation. Some of the requirements in IAS 1 are moved to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and IFRS 7 Financial Instruments: Disclosures. The IASB also made minor amendments to IAS 7 Statement of Cash Flows and IAS 33 Earnings per Share in connection with the new standard. IFRS 18 requires retrospective application with specific transition provisions. The Company is required to apply IFRS 18 for annual reporting periods beginning on or after January 1, 2027 with early adoption permitted.

The Company is currently evaluating the impact of IFRS 18 on its condensed interim consolidated financial statements.

New accounting standards and interpretations adopted during the period

The Company has adopted these accounting standards effective January 1, 2024.

Classification of Liabilities as Current and Non-Current (Amendments to IAS 1)

The amendments to IAS 1, clarify the presentation of liabilities. The classification of liabilities as current or non-current is based on contractual rights that are in existence at the end of the reporting period and is not affected by expectations about whether an entity will exercise its right to defer settlement. A liability not due over the next twelve months is classified as non-current even if management intends or expects to settle the liability within twelve months. The amendment introduced a definition of 'settlement' to make clear that settlement refers to the transfer of cash, equity instruments, other assets, or services to the counterparty. The amendments also clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. Covenants to be complied with after the reporting date do not affect the classification of debt as current or non-current at the reporting date.

The adoption of the standards and amendments had no material impact on the Company's condensed interim consolidated financial statements.

Basis of Measurement

These condensed interim consolidated financial statements have been prepared on the historical cost basis, except for certain assets and liabilities measured at fair value.

The condensed interim consolidated financial statements are presented in Canadian dollars, which is also the Company's functional currency.

The preparation of condensed interim consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

Going Concern and Continuance of Operations

These interim consolidated financial statements have been presented on the basis that the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. Realization values may be substantially different from the carrying values shown and these condensed interim consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2024, the Company had an accumulated deficit of \$56,545,272 (December 31, 2023 \$43,953,123) since inception, and the Company's working capital was \$59,071,418 (December 31, 2023: \$27,401,213). The Company is expected to incur further losses in the development of its business. The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary capital to meet its obligations and repay its liabilities arising from normal business operations when they come due. While the Company has been successful in securing financing in the past, there is no

Snowline Gold Corp.

For the three and six months ended June 30, 2024 and 2023

(Unaudited - Expressed in Canadian Dollars)

assurance that it will be able to do so in the future. These factors give rise to a material uncertainty that may cast substantial doubt about the Company's ability to continue as a going concern.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances.

Recent geopolitical events and potential economic global challenges such as the risk of higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

Basis of consolidation

These condensed interim consolidated financial statements include the results or financial information of Snowline Gold Corp. and its wholly owned subsidiary, Senoa Gold Corp.

3. Resource Properties

The Company has capitalized the following acquisition costs of its resource properties during the period ended June 30, 2024 and the year ended December 31, 2023:

Balance, December 31, 2022	\$ 8,501,675

Balance, June 30, 2024	\$ 19,699,530

a) Acquisition of Senoa Gold Corp.

On December 1, 2020, the Company entered into the Purchase Agreement, pursuant to which the Company agreed to acquire all of the issued and outstanding shares in the capital of Senoa then held by 18526 Yukon Inc. ("18526"). As a result of the Transaction, the Company acquired the Einarson (as to 70% with the balance owned by a third party, with the remaining 30% being acquired on April 22, 2024 (Note 4 (e)), Rogue, Tosh, Cliff, Rainbow, Cynthia and Ursa claims located in the Yukon (the "Properties"). The consideration of the Transaction consists of:

- (i) 25,650,000 common shares issued; and
- (ii) cash payments to 18526 as follows:
 - \$1,000,000 on closing of the Transaction (paid);
 - \$250,000 on the first anniversary of closing of the Transaction (paid);
 - \$250,000 on the second anniversary of closing of the Transaction (paid);
 - \$250,000 on the third anniversary of the closing of the Transaction (paid);
 - \$250,000 on the fourth anniversary of closing of the Transaction; and

Snowline Gold Corp.

Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited - Expressed in Canadian Dollars)

- a contingent \$1,000,000 resource bonus (to be paid on each of the seven Properties for an aggregate of up to \$7,000,000 (the “Resource Bonus”) upon Snowline establishing a Measured Mineral Resource, an Indicated Mineral Resource or an Inferred Mineral Resource (or any combination thereof) of at least 1,000,000 ounces of gold on any of the seven Properties.) The Resource Bonus is a one-time payment for each of the Properties (\$1,000,000 paid).

During the six months ended June 30, 2024, the Company announced an initial Mineral Resource Estimate (“MRE”) defined for the Valley Gold Deposit, located on the Company’s 100% owned Rogue Project which included:

- Indicated Mineral Resource: 76 Mt at 1.66 g/t Au for 4.05 million ounces
- Inferred Mineral Resource: 81 Mt at 1.25 g/t Au for an additional 3.26 million ounces

As a result of the MRE, the Company paid a \$1,000,000 resource bonus to 18526. This payment has been capitalized to resource properties.

18526 will retain a royalty equal to 2.0% of the net smelter returns in respect of each of the Properties, of which the Company may buy back one half (1.0%) at any time for 1,000 ounces of gold (.9999 fine) which may be satisfied in cash or in kind. The Transaction received Canadian Securities Exchange approval on February 25, 2021.

The Transaction did not meet the definition of a business combination and was therefore accounted for as an asset purchase of resource property interests. The consideration for the acquisition was allocated to the relative fair values of the assets acquired and liabilities assumed, based on management’s best estimate and taking into account all available information on the acquisition date.

The acquisition price of the mineral property interests was determined to be \$5,710,675 and is comprised of the following consideration:

25,650,000 common shares issued	\$ 3,847,500
Cash payment	1,000,000
Deferred cash payments	713,690
Transaction costs	149,485
Acquisition price allocated to mineral property interests	\$ 5,710,675

The 25,650,000 common shares issued were determined to have a fair value of \$3,847,500 at a price of \$0.15 per share. The fair value of the deferred payments of \$1,000,000 over a four-year period was determined to be \$713,690 on the acquisition date using a discounted cash flow model. A discount rate of 15% was used. During the six months ended June 30, 2024, the Company recorded accretion expense of \$20,758 (year ended December 31, 2023 - \$65,100) related to the deferred cash payments. The Company has elected not to recognize a liability for the contingent consideration related to the Resource Bonus at the acquisition date. Any liability for the Resource Bonus will be recognized when it becomes probable that the precedent conditions will be met. The Company incurred costs of \$149,485 associated with the Transaction.

The changes in the deferred acquisition payments are as follows:

b) Property option agreement

On September 1, 2021, the Company entered into a property option agreement with Epica Gold Inc., a wholly owned subsidiary of HighGold Mining Inc., and Carlin Gold Corporation (together the "Optionors"), pursuant to which the Company acquired the option (the "Option") to purchase a 100% interest in 812 mining claims surrounding the Cynthia project.

Under the terms of the Agreement, the Company can acquire the properties in exchange for payments to the Optionors of \$100,000 (\$50,000 which was paid on signing and \$50,000 which was paid on the first anniversary), and issuing 1,000,000 common shares to the optionors, (500,000 common shares which were issued on signing and 500,000 on the first anniversary).

The agreement is subject to a 2% net smelter returns royalty, with a 1% buy-back provision for \$2,000,000.

The acquisition price of the mineral property interests was determined to be \$290,000 and is comprised of the cash payment of \$50,000 and 500,000 common shares valued at \$240,000 or \$0.48 per common share.

On August 31, 2022, option agreement was amended to allow for the optionee to extend the term of the option agreement by one year and to split the remaining option payment over two years as follows:

- a) On or before September 15, 2022 the Optionee will pay the Optionor \$50,000 cash and issue 200,000 common shares of Snowline Gold Corp. to the Optionor.
- b) On or before September 1, 2023, the Optionee will pay the Optionor 300,000 common shares (issued) of Snowline Gold Corp.

During the year ended December 31, 2022, the Company made the \$50,000 payment, and issued the 200,000 common shares determined to have a fair value of \$576,000 at a price of \$2.88 per share.

During the year ended December 31, 2023, the Company issued 300,000 common shares with a fair value of \$1,497,000 or \$4.99 per share.

c) Strikepoint claims acquisition

On September 13, 2022, the Company entered into an agreement with Strikepoint Gold Inc., whereby the Company acquired 4,713 mineral claims from Strikepoint Gold Inc., forming the Olympus project, in exchange for (i) the payment of \$500,000 in cash, and (ii) the issuance of 500,000 common shares of the Company. On October 20, 2022, the Company received the necessary approvals from the Canadian Securities Exchange,

a necessary closing condition to complete the acquisition. The cash payment of \$500,000 was delivered, as well as the 500,000 common shares determined to have a fair value of \$1,375,000 at a price of \$2.75 per share.

d) Botto claims acquisition

On May 19, 2023, the Company entered into an agreement with arm's length parties RST Klondike Discoveries Ltd. and Whistler Minerals Corp. (the "Vendors"), whereby the Company acquired 92 mineral claims in exchange for (i) the payment of \$1,000,000 in cash and (ii) the issuance of 200,000 warrants, each for purchase of a single common share of the Company at a price of \$3.50 for a period of two years (the "Acquisition"). The value of warrants was estimated at \$240,231 using the Black-Scholes Model with the following assumptions:

Risk free interest rate	4.24%
Expected life in years	2
Expected volatility	89.49%
Expected dividends	Nil

The Vendors will retain a 1.0% NSR on the claims and will be entitled to up to two bonus payments of \$1,000,000 each if a measured or indicated mineral resource of greater than 1 million ounces of gold is disclosed in compliance with NI 43-101 standards on certain claims. The bonus payments are a contingent liability and have not been recognized.

On May 8, 2024, the Company entered into an Option Agreement with Epica Gold Inc. and its parent, Onyx Gold Corp. ("Onyx"), to sell certain mining claims in the Botto claims package. To acquire the claims, Onyx is required to issue:

- 500,000 common shares upon the TSX Venture exchange of approval of the agreement (July 5, 2024, the "Effective Date").
- 500,000 common shares on or before the first anniversary of the Effective Date.
- 500,000 common shares on or before the second anniversary of the Effective Date.
- 1,500,000 common shares on or before the third anniversary of the Effective Date.

The Company received the first 500,000 common shares on July 8, 2024.

e) Anthill acquisition

On April 22, 2024, the Company entered into an agreement with Anthill Resources Ltd. ("Anthill") to acquire the remaining 30% interest in 3,003 mineral claims in exchange for (i) payment of \$1,200,000 in cash, (ii) issuance of 1,012,000 common shares of the Company and (iii) contingent payment of \$1,000,000 resource bonus (to be paid on each of the seven Properties for an aggregate of up to \$7,000,000 (the "Resource Bonus")) upon Snowline establishing a Measured Mineral Resource, an Indicated Mineral Resource or an Inferred Mineral Resource (or any combination thereof) of at least 1,000,000 ounces of gold on any of the seven Properties. The Company has elected not to recognize a liability for the contingent consideration related to the Resource Bonus at the acquisition date. Any liability for the Resource Bonus will be recognized when it becomes probable that the precedent conditions will be met.

The value of the common shares was estimated at \$6,163,080 using the closing market share price on the day prior to the issuance of shares of \$6.09.

Anthill will retain a 2% net smelter returns royalty, with a 1% buy-back provision equivalent to the value of 1,000 ounces of gold on certain claims, which may be satisfied in kind or in cash (using the the value of 1,000 ounces of gold shall be equal to the average of the London p.m. fix quoted by the London Bullion Market Association) at the discretion of the Company.

14. Financial instruments

a) Management of capital:

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, to pursue the development of its assets and to maintain a flexible capital structure that optimizes the cost of capital within a framework of acceptable risk. In the management of capital, the Company includes the components of amounts attributable to shareholders.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue new debt, and or acquire or dispose of assets.

The Company is dependent on the capital markets as its primary source of operating capital and the Company's capital resources are largely determined by the investment appetite in the mineral resource market and its ability to compete for investor support in this market.

The Company is not subject to any capital requirements.

b) Classification of financial instruments:

The Company's financial instruments consist of cash, cash equivalents, receivables, deposits, reclamation bond, accounts payable and accrued liabilities, lease liabilities, share-based compensation liabilities, and deferred acquisition payments. The Company's cash and cash equivalents and share-based compensation liabilities are classified and measured at fair value. The Company's receivables, deposits, reclamation bond, accounts payable and accrued liabilities, lease liability and deferred acquisition payments are classified as and measured at amortized cost.

c) Fair Value of Financial Instruments:

The Company classified its fair value measures within a fair value hierarchy, which reflects the significance of inputs used in making the measurements as defined in IFRS 7 – Financial Instruments: Disclosures.

Level 1 – Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs which are supported by little or no market activity.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended June 30, 2024 and 2023

(Unaudited - Expressed in Canadian Dollars)

As at June 30, 2024 and December 31, 2023, the Company had measured cash and cash equivalents at fair value through profit and loss. Reclamation bond is measured at amortized cost. The carrying amounts of receivables, deposits and accounts payable and accrued liabilities approximate their fair values due to the short-term maturities of these instruments. The Company values share-based compensation liabilities based on the closing market price of its common shares, which is a Level 2 measure.

d) Financial instruments risk exposure:

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises from cash and cash equivalents held with banks and financial institutions as well as accounts receivable. The Company's cash and cash equivalents are held at a major Canadian financial institution. Receivables consist of Goods and Services Tax receivable from the Government of Canada. The Company's reclamation bond of \$315,387 is held by the Department of Energy, Mines and Resources and its credit risk is limited to the carrying value of the bond. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The Company has not recognized an expected credit loss allowance as at June 30, 2024 and December 31, 2023.

Interest Rate Risk

Interest rate risk is the risk that the Company is exposed to the risk that the value of financial instruments will change due to movements in market interest rates. As at June 30, 2024, the Company did not have debt instruments exposed to variable interest rates. The risk is not significant.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company manages liquidity risk by maintaining sufficient cash to enable settlement of transactions on the due date. Management monitors the Company's contractual obligations and other expenses to ensure adequate liquidity is maintained.
