## Keep Your Doctor, Keep Your Routine:

You do not need to change doctors. Once you transfer your prescriptions to Aphora during enrollment, you can continue taking the same medications prescribed by the same provider, no disruptions. Automatic refills are shipped 2–3 weeks prior to your supply running out.

## Home Delivery with Live Care Navigation:

Every prescription is delivered directly to your home or preferred address with free tracked shipping. Our Care Navigators manage transfers, prior authorizations, and ongoing adherence support to keep your treatment smooth and stress-free. You will receive reminders, tracking numbers, and refill confirmations by email or text. Temperature-controlled shipments are monitored end-to-end.
