

## STERILE NEUTRAL CLEANROOM DETERGENT

KALICHEM NEUTRAL ONE - STERILE

DETERGENT

KC-TC100NEO122A-S

Neutral detergent intended for rapid cleaning of surfaces and equipment in clean rooms

 Filière  
Engagée  
Conformat

KaliChem Neutral One, is a neutral detergent designed specifically for cleaning surfaces in cleanrooms. Its composition, which combines innovative chemistry and biotechnology, enables the effective removal of soiling or residues. This cleaning step is essential for effective disinfection, in accordance with the recommendations of Annex 1. The formulation, based on new amino acid derived technologies, allows for an excellent cleaning performance.

KaliChem Neutral One is specially designed for use in sterile Controlled Atmosphere Zones as a detergent in the process of bio-cleaning.

## APPLICATIONS

### MANUAL

Ready to use product.

**SPRAYING** : attach the spray head to the bottle and spray the product uniformly and in sufficient quantity at a distance of 10 to 30 cm from the surface to be treated.

**WIPING WITH SINGLE-USE WIPES** : attach the spray head to the bottle and spray the product evenly and in sufficient quantity onto a wipe and apply to the surface to be treated.

**SOAKING** : pour the contents of the bottle directly into a suitable soaking system.

Always follow the established hygiene plan for your facility.

### PRECAUTIONS FOR USE

Before use, read the label, safety data sheet and product information carefully.

Reserved for professional non-food/non-animal use .

## FEATURES

- Proven efficacy for cleaning grease, powders and organic matter (sugars)
- Good compatibility with most surfaces
- Low foaming
- pH : 7.5 ± 1
- PPI/WFI quality water (European & American pharmacopoeia)
- Bottle with screw cap and separate sprayer
- Sterile format, double wrapped individually

## FABRICATION PROCESS

- Gamma-irradiation of components at 25 kGy minimum
- Dilution carried out with water meeting the requirements of the European Pharmacopoeia (EP) and American Pharmacopoeia (USP).
- Micro-filtered solution at 0,2 µm
- Filling and packaging under ISO 5 flow assimilated microbiological class A

## QUALITY REPORT

- Batch-to-batch traceability
- Quality documents accompanying each batch :
  - Irradiation certificate
  - Certificate of conformity
  - Sterility analysis certificate
  - endotoxin analysis certificate

## CONSERVATION

- Shelf life : 2 years in optimal storage conditions : protected from light, strong temperature variations and in a dry place.
