Capability / Feature	Jint	Staffbase
Foundation & structure	One integrated, native Microsoft 365 experience.	Standalone; employee app and intranet are separate, licensed modules.
Microsoft 365 & Teams integration	Native to SharePoint, Teams and Viva.	Integrates with M365 but runs as a separate system.
Mobile & frontline reach	Jint Mobile (PWA) with targeted push notifications for frontline teams.	Strong native mobile app, its standout strength.
Internal newsletters & communication	Jint Newsletter in SharePoint/Teams: drag-and-drop, targeting, tracking.	Built-in email and newsletter tool, a genuine strength.
Search & navigation	Native Microsoft 365 search across all your content.	Search reported as ineffective in user reviews.
Data storage & governance	100% of your data stays in your own Microsoft 365 tenant.	Hosted on Staffbase's separate SaaS.
Pricing & packaging	Builds on the M365 you already own. One integrated price, no module overlap.	Premium pricing (~\$30k/yr+ per third parties); pay-per-module, overlap risk.
Generative AI	Jint Genius grounded in your governed M365 content, inside your tenant.	AI features running on a separate third-party platform.
