

Jint vs. Interact

Discover why 500+ companies chose Jint, the 100% native Microsoft 365 solution. Get targeted communications, native search, and a modern intranet inside the M365 you already own, without a separate platform to maintain.

Jint's Key Strengths

Deployment & Simplicity

Native Integration

Performance

Data Security

User Experience

Autonomy

Capability / Feature	Jint	Interact
Foundation & Microsoft 365 integration	Native add-in to SharePoint, Teams and Viva.	Standalone platform integrated with M365, not native to it.
Content management & backend	Edit pages directly in SharePoint, familiar to M365 admins.	Reviewers cite a complex, sometimes glitchy backend and a learning curve.
Search & targeting	Unified Microsoft 365 search with advanced audience targeting.	Strong search and targeting, a genuine Interact strength.
Implementation	Fast, partner-light deployment on your existing M365.	Implementation experience reported as inconsistent by some reviewers.
Automation	Automated, interactive components out of the box.	Users ask for more automation on publishing, archiving and renewal.
Data storage & governance	100% of data in your own M365 tenant.	Hosted on Interact's separate SaaS.
Generative AI	Jint Genius grounded in your governed M365 content.	AI features on a third-party platform.
Pricing	Builds on the M365 you already pay for.	Quote-based; a separate platform cost on top of M365.

Why Choose Jint

✓ Launch faster with ultra-light training and empower users with less IT dependency.

✓ Deliver a seamless experience across all Microsoft environments, faster and reliably.

✓ Create beautiful, targeted communications, without design constraints.

✓ Engage global teams by instantly delivering content in their native language.

✓ Keep your data secure with full sovereignty inside your Microsoft tenant.

✓ Strengthen company culture with engaging, automated tools.

✓ Help employees find what they need with unified, intuitive search and AI assistants.

✓ Stay in control of your brand and mobile experience with a self-service builder.
