

MEETING SOMEONE FROM AN APP?

BEFORE YOU MEET UP

☐ **Video chat first.**

A five-minute call confirms they're the person in the photos.

☐ **Meet in public. Stay in public.**

First meetings happen where other people are — start to finish.

☐ **Tell someone where you'll be.**

Roommate, friend, or RA — who you're meeting, where, and when you'll check in.

☐ **Share your location.**

Live location with a friend for the duration. Turn it off after.

☐ **Get yourself there and back.**

Your own ride means you can leave whenever you want.

☐ **Run them through Cray first.**

Score what you've seen so far — and check the phone number they gave you.

☐ **Watch your drink.**

Order it yourself, watch it poured, never leave it.

☐ **Set an exit text.**

One code word to a friend = the call that gets you out.

☐ **Trust the ick.**

Leaving early is always allowed. You owe no one an explanation.
