

# Better Than Before Divorce™

## WORKBOOK

This is your Question Tracker — a simple place to capture every question as it comes up, note who's the right person to answer it, and follow it through to done.

Walking into an important meeting organized is one of the most practical things you can do to protect your time, your money, and your peace of mind.

Use this so your next conversation stays clear and focused, not scattered.

Sending love and strength,
