

What is TEEM?

The award-winning **Technology Enabled Engagement with Mentoring™ (TEEM)** program supports Virginia college students pursuing cybersecurity careers. TEEM connects students with industry professionals, helping them build the skills and experience to confidently enter the workforce.

Why TEEM Works for You?

- **You take the lead.** Shape conversations and set goals aligned with your career interests while receiving feedback from cybersecurity mentors.
- **Fully virtual and flexible.** Meet online one hour per week for six weeks in a format designed to fit your schedule.
- **Structured and manageable.** A guided framework keeps sessions focused and productive, with minimal coursework.
- **Earn a recognized certificate.** Receive a certificate from CCI and CTEWorkforce. It's a résumé builder.

**Start your
mentorship.**

**Want to
mentor
someone?**

How Will You Benefit?

TEEM helps you apply what you're learning to **real career pathways**. Build communication and **professional skills while preparing** for internships, interviews, and future opportunities. Students across 40+ higher education institutions report an **80% increase in career confidence**.

Where Do I Begin?
