

What is TEEM?

The [award-winning](#) **Technology Enabled Engagement with Mentoring™ (TEEM)** program connects college students pursuing cybersecurity careers with industry professionals. Through a **structured, virtual format**, TEEM supports learning, mentorship, and career exploration.

Why TEEM Works for You?

- **Learn together.** Set goals, share insights, and build meaningful conversations.
- **Minimal time commitment.** Just 45 minutes per week, for four weeks.
- **Flexible and fully virtual.** Participate from anywhere, on a schedule that works for you.
- **Simple and structured.** A guided format keeps conversations focused.
- **Build valuable skills.** Just show up ready to engage – TEEM provides the framework.
- **Earn recognition.** Receive a certificate from CCI and CTE. It's a great resume builder.

How Will You Benefit?

Give back while building your future. Develop leadership, communication, and professional skills while **exploring cybersecurity pathways**, expanding your network, and connecting with emerging talent in the field. Students across 40+ institutions report an **80% increase in career confidence**.

Where Do I Begin?
