

What is TEEM?

The [award-winning](#) **Technology Enabled Engagement with Mentoring™ (TEEM)** program supports Virginia college students pursuing cybersecurity careers. TEEM connects students with industry professionals, helping them build the skills and experience to confidently enter the workforce.

Why TEEM Works for You?

- **You take the lead.** Shape conversations and set goals aligned with your career interests while receiving feedback from cybersecurity mentors.
- **Fully virtual and flexible.** Meet online for 45 minutes per week for four weeks in a format designed to fit your schedule.
- **Structured and manageable.** A guided framework keeps sessions focused and productive, with minimal coursework.
- **Earn a recognized certificate.** Receive a certificate from CCI and CTEWorkforce. It's a résumé builder.

**Start your
mentorship.**

**Want to
mentor
someone?**

How Will You Benefit?

Build communication and professional skills through conversations while preparing for internships and opportunities. TEEM offers experience for applications and resumes. **Students earn a \$50 stipend and qualify to apply for a real-world job** with a TEEM partner.

Where Do I Begin?
