

What is TEEM?

The [award-winning](#) **Technology Enabled Engagement with Mentoring™ (TEEM)** program connects Virginia college students pursuing cybersecurity careers with industry professionals. Through a **structured, virtual format**, TEEM enables professionals to mentor talent and help shape the future cybersecurity workforce.

Why TEEM Works for You?

- **Make an impact.** Help guide the next generation of cybersecurity talent.
- **Minimal time commitment.** Just 45 minutes per week, for four weeks.
- **No prep required.** Students lead, schedule, and drive each session.
- **Simple and structured.** A guided format keeps conversations focused.
- **Flexible and fully virtual.** Participate from anywhere, on a schedule that works for you.
- **Qualifies for volunteer time-off.** Use your volunteer leave and earn service credits.

How Will You Benefit?

Give back while **staying connected to emerging talent**. Build leadership skills, expand your network, and **gain insight into the next generation** of cybersecurity professionals. Students across 40+ institutions report an **80% increase in career confidence** – driven by mentor engagement.

Where Do I Begin?
